## THE MYSTIC SHRINE.

Charles L. Fields of San Francisco Is Elected Imperial Potentate.

Order Has Alleviated Much Poverty and Distress.

Retiring Potentate's Address Shows Great Grow'h in Membership and Finances.

NANTASKET BEACH, Mass., Sept. 3.-The Mystic Shriners made several changes in the constitution yesterday, and then the following officers were elected: Imperial potentate, C. L. Fields, San Francisco; leputy imperial potentate, J. T. Brush, Indianapolis; chief rabban, Harrison Bingman, Washington; assistant rabban, E. R. Harris, Detroit; high priest and prophet, A. B. McGaffey, Denver; oriental guide, E. F. Allen, Kansas City: treasurer. W. S. Brown, Pittsburg; recorder, B. W. Rowell, Boston; first ceremonial master, narshal, R. M. Johnson, Chicago; captain of the guard, J. H. Atwood, Leavenworth, Kan.; outer guard, H. K. Blanchard, Providence. It is estimated that there were at least 10,000 visitors at the Rockland House yesterday, of which more than

The vote for the nex imperial potentate. Charles L. Field of San Francisco, was 21 out of 138. Mr. Field is a San Franisco merchant, in the leather business, a man known and admired throughout the vest. He is past commander of the famous Golden Gate commandery and past potentate of the Islam Temple. He was 00 years old yesterday, his election being a his fellow nobles.

When carping criticism or aptious comment, derogatory to the hrine is made, let us point to our charitable deeds to God's poor and say: "This is the answer of the Shrine in America."

The prosperity of the order continue mabated. Notwithstanding the financial lepression during the greater portion of he year our growth in membership during 1894 was the largest in our history; on Dec. 1, 1893, amounting to 31,441. On the same date, 1894, it was 37,542, showing a gain of 6107. During the year I have made special effort to ascertain the growth and condition of the order in other ways than in numerical strength, and am glad to report regarding its material prosperity. We now have 74 temples in North America located in 37 states and territories, with net assets of \$303,941.85.

The case went to the supreme court, and was one of the most famous insurance cases of the country. The insurance companies were defeated in the final decision, being recorded last month. It was always maintained by the companies that Fraker was alive, but his whereabouts

were unknown. Recently it became known in some way that Fraker was near Tower, where he was known under the alias of Schnell Attorney Herrick and Deputy Sheriff Wilkins of Topeka came here and organized a party to search for him. Fraker was found in the woods, and his capture was effected in a strategic manner. He was brought to Duluth yesterday and was

taken to Topeka at once. The case is one of great general interest because of a reward of \$20,000 which was offered for his capture. Fraker is a physician, and up to the latter part of 1893 was physician to the St. Elmo hotel, the leading hotel in Excelsior Springs, a famous health resort near Kansas City. # Made Wear Carpetings.

This appeals to such people as understand and appreciate the orth and satisfaction of owning good carpetings. In buying a carpet these things should be considered fully as much as the price, the closeness of weave, the number of threads. the weight, the quality of wool, the reliability of the colorings as well as general durability.

It's only the old and experienced millers that give these items he thought they should receive. Unscrupulous manufacturers pay attention to looks and let the rest take care of itself. One week previous to the recent advance in price, we received from the oldest and most reliable mill in the coun ry over one hundred rolls of wools and apestries, and while they last we offer the greatest bargains ever heard of in carpetings. Stopped the Squeak. It is an old saying that the person who makes jokes should be prepared to take them, but we all know that the practical joker is very obtuse when the joke is at his expense, although others enjoy it hugely. One of these jokers, who was also an amateur ventriloquist, was recently a passenger on a steamer, and having a slight acquaintance with the engineer was allowed to enter the engine room. He took a seat in the corner, pulled his hat down over his eyes and appeared to be lost in reverie. Pres-

ently a certain part of the machinery began to squeak. The engineer oiled it and went about his usual duties. In the course of a few minutes the engineer rushed out, can in hand, to lubricate the same spindle. Again he returned to his post, but it was only a was squeaking louder than ever. "Confound the thing!" he cried. "It is bewitched." More oil was applied, but as to its cause. Soon the spindle squeaked for the fourth time, and on this occasion the engineer slipped up behind the ventriloquist and squirted half a pint of oil down his back. "There," said he quietly, "that spindle won't squeak any more!" It didn't.—Atlanta

# The Daily Ledger. WEATHER AND CROPS.

Past Week Has Been Very Favorable For Growing and Ripening.

Wells and Streams In Maine Reported Very Low.

Considerable Frost In Northern Sections but No Great Damage Done.

Boston, Sept. 3.-The New England weather bureau issued the following buletin for the week ending Sept. 1: Favorable growing and ripening weather has prevailed over the greater part of New England during the week just passed, and much harvesting has been done. From one-half inch to one inch of rain fell in frequent showers in northern sections, and the top of the ground is well wet down, although streams and wells are said to be unusually low in many sections. In south central New Hampshire, the showers on the 29th and 31st were very heavy, almost 21/2 inches falling in the two showers at Sanbornton, in Belknap county. Farther south in the same state, and also over the three southern states. from one-fourth to three-fourths inch of water fell during the week. On the morning of the 1st there was considerable frost in northern Maine, with the mercury down to 33° at 5 a. m. at Poland, Androscoggin. At West Milan. New Hampshire, he temperature on the 2d was 32.5°, but a frost was prevented by fog. Light frost was general on the low lands on the latter date, but no damage of amount has been reported. The nights continue too cool for corn, and there is not quite sun enough for the best ripening of tomatoes, but generally crops are advancing in good shape. The potato rot has not increased to any extent. Tobacco is mostly harvested, with excellent weather for the work; the weather conditions are reported very good for curing the crop also. Cranberry picking will be begun to considerable extent this week. Much fall plowing and seeding is being done, with conditions generally favorable for the work. An earthquake was, felt at Greenfield Hill, Conn., on the morning of the 1st.

It has been ritt. slightly too cool for corn, but that crop is At New Bedford-New Bedford, 5; Pawin good condition. The grain harvest is mostly over, and is very free from rust. Potato digging has begun in Aroostook county, but the harvest will not be general before next week. Potatoes are rotting slightly in southern counties. Light rains havo kept the top of the ground moistened in most places, but pasture feed is reported short, and wells and streams are very low. One correspondent in Aroostook county reports them the lowest for 25 years. Frosts in low lands on the mornings of the 1st and 2d, but no damage has been re-

Corn Is Late. At West Milan, in Coos county, New Hampshire, the temperature was 82.5° from a reliable thermometer on the morning of the 2d, but the correspondent states that a heavy fog prevented damage to crops. A light frost is reported in low behalf of the Cuban commission. He re very little damage was done. Crops are ting to considerable extent. Corn is mak ing a good growth, but is reported later than usual; the cool nights check its growth. The weather has been favorable for seeding down, and much has been done Apples are small and scarce in all the low lands, due to the cold weather in the spring. Beans are ripening fast and are in good condition. Fodder corn and Hun-

garian grass are growing finely. Harvesting Begun. Considerable cloudy, showery weather the potatoes especially. It has been a better week for the growth of crops than squeaking was heard again, and the for harvesting in this state, but grain is now mostly cut, and corn and potato harvesting has begun to a limited extent. Beans and India wheat are being put in, also, and are in good condition. Grapes few minutes until the same old spindle are beginning to turn. Corn needs a few more days of warm sunshine in most places. Meadows are looking well, and pastures are pronounced in good condithe engineer began to be more suspicious | tion for the season of the year. crops, but not enough to fill up wells and springs to an appreciable amount. Meadows and pastures show the effects of the warm weather and rains, and are unusually green and good. There are local accounts of potato decay, but it is not serious, and reports indicate that it is not erious, and reports indicate that it is not necessing. Tobacco is housed and is said of the first production in London of "Ala to be curing well. The season which has been so faused chiefly for aches and pains, but at vorable for most crops has not been of advantage to apples, and now the fruit is dropping off badly. Cranberries are coloring slowly, and picking has begun or will

> Ground Very Dry. In northwestern Connecticut only moderate rains have fallen, and the ground was in such a dry state that much more is needed for pastures and for the best advancement of crops, but in central and eastern districts sufficient has come for everything, and vegetation is fresh and crops are ripening nicely. Apples are dropping badly, but in many orchards in outhwestern Connecticut the trees are loaded with both fall and winter fruit. Corn looks well and is maturing fast. Cutting has begun in a few places. The potato disease seems to have been checked to considerable extent, but the digging is going on in most sections. Tobacco is nearly all cut, and in fine condition, and the weather is pronounced very favorable for curing it. Onion pulling is well along, and in many fields most of the crop is now under cover.

Weather Just Right.

The week has been one of good growing and ripening weather in Rhode Island, and all crops have advanced. A high wind prevailed in southern counties a short time on the 29th, but no serious daniage is reported. Potatoes are found not to be rotting very badly.

## Made To Wear Carpetings.

This appeals to such people as understand and appreciate the

worth and satisfaction of owning good carpetings. In buying a carpet these things should be considered fully as much as the price, the closeness of weave, the number of threads, the weight, the quality of wool, the reliability of the colorings as well as general durability.

It's only the old and experienced millers that give these items the thought they should receive. Unscrupulous manufacturers pay attention to looks and let the rest take care of itself. One week previous to the recent advance in price, we received from the oldest and most reliable mill in the country over one hundred rolls of wools and tapestries, and while they last we offer the greatest bargains ever heard of in carpetings. All Wools, 47 1-2 cents; extra Super Wool Ingrains, 52 1-2 and 57 1-2 cents; best Lowells, 65 cents; splendid Wool Tapestries, 49 cents; heavy Tapestries, 55 cents; extra heavy Tapestry Brussels, 65 cents. This is the turning point in price of carpetings, and from now on prices in all markets will advance rapidly. Don't miss this opportunity.

#### EDITORIAL COMMENTS

yesterday from Brother Miller, editor of the Hingham Journal, who visited this city ou account of the sad mishap to Mr. Tilson A. Mead, a relative of his wife.

We have never known the mail service on newspapers for the past forty years to be so poor as it has been of late. It is outrageous. Papers sent from Quincy on Friday do not arrive in adjoining towns often, for two, three or four days.

We have made complaint at the Quincy office, and at the Boston office but with little satisfaction. If our present administration is incompetent to attend to the business the sooner we have a change the better. If it takes two or three days to send a newspaper to a subscriber who lives not five miles away we had better go back to the times of the old stage coach.

Every subscriber to a weekly paper wishes to receive it on or before Saturday evening. And if it does not arrive until Monday or Tuesday it is of little value; and many complaints the publisher will receive. We were informed in the Boston office that they were unable to attend promptly to the large arrival of papers which were received on Fridays. A pretty state of affairs for an office like Boston that is paying yearly into the government thousands of dollars profit.

#### Postal Car Service.

The transmission of mails between various sections of Boston and of the Boston postal district has been so expedited by the postal cars on the street railways that it is evident that the public convenience would be immensely promoted could the system be extended to other sections of the suburbs. At present the Suffolk County, together with Cambridge enough. and Somerville in Middlesex, and Brookline in Norfolk. It might be a good idea to make it cover the entire metropolitan district, and make postal Boston the same as Greater Boston. Some improvements and economies might thus be effected in the administration of the local mail ser-

A letter that now takes something like 24 hours to get to a destination perhaps two or three miles away might, by such an extension of Grade the street railway mail service, reach its destination in a very few hours.

Such intrametropolitan mail routes could, for example, be very easily established between places like Newton, Waltham, Watertown and Cambridge Hyde Park and Dedham; Quincy, Braintree and Weymouth, and Lynn, Saugus Wakefield, Woburn, Malden, Melrose Medford, Stoneham and Winchester. The value of such a service has already been so completely demonstrated on existing routes that there should be no question of the advisability of extending the present system .- Dedham Transcript.

marriage is a failure. His wife is only 22, while he is 65.

Yesterday he told a pitiful tale to Clerk
of the Police Court George, who issued a warrant embracing an alleged murderous assault, an untrue wife and larceny. Makowski alleges that his wife was dis-

covered in a compromising position with a young man, and that he remonstrated. The young man, his wife and his wife's sister, he says, savagely attacked him. He also claims that they robbed him of \$65 and left him for dead in his house. Makowski's wife claims that since the marriage her husband has been unjustly jealous of her, and has accused her of unfaithfulness repeatedly. She says he came home and, on seeing a young man in the house, who was only making a friendly call, went into a rage and assaulted her, and the pair of black eyes she has, she says, he gave her.

Letter Carriers' Legislation. PHILADELPHIA, Sept. 4 .- The Nationa Association of Letter Carriers opened its convention here yesterday, President C. C. Couden presiding. Delegate Arkinson offered a resolution to prepare a law for presentation to congress providing for the increase of salaries of second class carriers from \$850 to \$1000. Resolutions were also offered requiring the legislation committee to prepare bills granting each letter carrier a certain sum each year for uniforms. The committee appointed to secure the erection of a monument in honor of the late Hon. S. L. Cox reported that their work was concluded. The sum of \$10,-919.12 had been collected, and the expenses were \$10,913.12, leaving a balance of \$6.

A Big Flywheel of Wire.

Among the most recent and novel applications of wire, perhaps none has greater interest to the mechanical world than that presented by the wire flywheel lately erected at the Mannesmann Tube company's works, Germany. Heavy flywheels, driven at high velocities, ob viously present dangers of breaking asunder from the great centrifugal force developed. The wheel at the factory mentioned consists of a cast iron hub or boss, to which two steel plate disks or checks, about 20 feet in diameter, are bolted. The peripheral space between the disks is filled in with some 70 tons of No. 5 steel wire, completely wound round the hub, and the tensile resistance thus obtained is far superior to any cast-

This hage flywheel is driven at a speed of 240 revolutions per minute, or a peripheral velocity of about 2.8 miles per minute (250 feet per second approximately), which is nearly three times the average speed of any express train in the world. The length of wire upon such a constructed flywheel would be about 250 miles. The use of paper is also regarded with favor as a face for large flywheels, the tensile strength of paper being enormous, and it is quite possible that some of the new big flywheels will be built up with a paper

#### Why He Didn't Know.

It was at a spiritualistic seance in Philadelphia that this incident took place. Captain Morrell of the steamship British Prince was engaged to Miss Souley, who at a former scance met a some reliable person, Edward Sprecker of Richview, Ills., who attempted suicide Brewer's Corner you will notice the "spirit lover," said to be Harry Monrush for A. P. Frolund's, where great tague, the actor. "I'll tell you what bargains in are to be School Shoes we'll do," said the captain on his last voyage here; "we'll get married and found. Also Men's Shoes and a then we'll go to the seance and see special line of Ladies' Goods. Repairwhether this dead actor fellow knows how he has been cut out."

This was agreed to, and sure enough 162 Granite St., Quincy. at the next seance Harry proceeded to make love to Miss Souley, just as though she was not already another man's pos session. Finally Mrs. Morrell exclaim-E. MENHINICK

"Why, Harry, don't you know what has taken place?'

Harry didn't. Then Mrs. Morrell announced her marriage and asked Harry how, if he loved her so, he didn't know it? This was a staggerer for the spirit, but whoever took the part of Montague came to the scratch in great form with the explanation:

"Why, you see, we don't have marriages in heaven, and so of course I serious trouble between the two countries couldn't know anything about it."-Philadelphia Times.

How Nicaragua Would Receive Colonies From the United States.

Substantial Progress In the Building of Railways.

Peculiar Treatment of Foreigners Who Were Accused of Lynching.

MANAGUA, Aug. 18.-H. Drew, who registers from New York city, is here, endeavoring to make a contract with the government to bring a colony or colonies here from the United States.

El Pueblauja, a semi-official organ, alluding to Mr. Drew's project, says that Nicaragua is desirous of receiving immigrants who come with money to live under her "liberal laws," but that the government prefers that they should come only in such numbers as may be readily assimilated with the nation. Mr. Drew represents a Cincinnati business concern.

Chester Donaldson, who represents that WEYMOUTH LANDING-W. E. Cunhe has been teaching a private military school in New York for several years, has been here for some time seeking to indace the government to establish a military academy, of which he shall be the superintendent. The project does not meet with much favor. Mr. Donaldson has also been seeking signatures to a petition for his appointment as United States consul at Managua.
Railroad Work.

Work has been begun upon the railway from Rama, at the head of navigation of the Bluefields river, to San Uvaldo, on

Lake Nicaragua. The national revenues, in excess of expenses, collected at the small roadsteads at Cape Gracias-a-Dios and at the mouth of the Rio Grande de Matagalpa, are to be applied to the construction of this railroad. These revenues amount to about \$60,000 per annum. The length of the new railroad is to be about 110 miles. Capital ists from the United States have large interests in the road.

Work is to commence soon upon a na tional narrow gauge railroad from the Na tional railway at Masaya to Diramba. Most of the money necessary to build this road has been subscribed by owners of coffee estates on or near the line of the road.

The National railway from Chinendega to El Viejo was opened by President Zelaya and his cabinet on Aug. 15. This railroad is about four miles long, and it runs through a level valley. Its construcion occupied 14 months. It will connect the old Indian town of El Viejo with the main line of the National railway from Corinto to Lake Nicaragua. Prosecuted For Extortion

The eight foreigners, six of them claim ing to be citizens of the United States, who were tried before a native court at Matagalpa, in November, 1894, and acquitted of the charge of lynching an Indian who had acknowledged having been one of a party that murdered a foreigner living near Matagalpa, were recently arraigned a second time for the same offense, no new evidence having developed mean

They evaded arrest, but in their absence were tried, six being found not guilty, while the other two were found guilty as charged. It is alleged that the second resecution of these men, who are well-to do coffee planters, was undertaken by the civil authorities of the department of Matagalpa as a means of extorting money from them. Personal Notes.

Hon, H. E. Low, acting United States sul at Managua, has been seriously sick for several days with fever of a malarial type. He is now improving and apparently out of danger.

Mr. Low has received orders from the state department at Washington to send by steamer to San Francisco, in charge of here about three months ago. Sprecker has nearly recovered from his injuries.

Mr. DeSavigney of St. Paul has purchased, for a company of Minnesota citizens, a young coffee estate in the department of Notega. The price paid was about \$7600 in gold. The estate contains about 650 acres of improved lands, the trees upon it being four years old. Those should be in full bearing in 1898, producing from 50,000 to 70,000 pounds of coffee.

General Duarte, governor of Bluefields, has returned to Managua on leave of absence. He will not probably return to Bluefields as governor. General Pable Reyes, who is acting governor in General Duarte's place, will probably be appointed

It was the last fea-ture of a successful session. The chief speaker was Imperial Potentate-Elect Charles L. Field. Other nobles of the Mystic Shrine were also heard, and the exercises closed with a general expression of determination by those present to be at Cleveland next June.

Tammany Hall Scorned. NEW YORK, Sept. 4.-Tammany Hall held out the olive branch vesterday to the New York state Democracy, but it was rejected with scorn. No more bitter assailant of Tammany and her methods was discovered in this crisis than Corporation Counsel Scott. Mr. Scott characterized the overtures of Tammany as a lamentable exhibition of weakness. Mr. Scot exorted his fellows to stand on their own legs and have nothing to do with Tammany Hall, and his advice was followed. This lessons Tammany's chances of victory greatly and proportionately increases the Republican chances.

A Sixth Narrowly Escaped the Same Fate In a

The accident was a most peculiar one. For several days leaking gas has been detected in the holder, and yesterday the company sent six men under a foreman to find and repair the leak, which proved to come from a defective valve connecting the our-inch main which supplies the Westfield street holder with gas from the main holder on Globe street. The unfortunate men had just returned from dinner at 1 o'clock, and going down the wooden stairs which leads from the entrance of the holder to the cellar below, began to work

on the broken valve.

They disconnected it, and tied a big loth bag about the large main extending in from the street, when, for some reason or other, the bag gave way, and an im-mense volume of gas rushed out. In much less time than it takes to tell it, all were overcome, and before they could reach the foot of the stairs, within a few feet of them, they dropped dead, with the exception of one, who managed to creep up stairs, where the fresh air enabled him to

ecover sufficiently to reach the street. Immediately after it became known that he men were unable to get out, willing ands attempted to go to the rescue, but nothing could be done while the escaping gas rushed up the cellar stairs. Foreman Allen did all he could, but there was no cut-off in the street, and he knew not which way to turn. The police were quickly on the spot and roped off Westfield street, and Medical Examiner Palmer stood in the doorway to prevent anybody rom going down the stairs.

Soon after 3 o'clock the gas company sent a gang of men to dig up the street in front of the terrible grave, to get at the main shut-off farther along, it being understood that no other means of shutting off the gas could be attained, and even then it meant two hours' work. Foreman Allen took a hand in the excavation, and was overcome before the digging had proceeded far. He was taken to the Rhode Island hospital.

QUINCY IS able to accommodate all its school children in its own buildings even though they are crowded. It seems to be impossible in Boston if the following is a sample. The principal of the Hancock school, Boston, told the Journal yesterday: "Yes, we are full and overflowing. We haven't seats for all our scholars. This morning I turned away over 125 who had applied for admission, and if I were to thin situated I should send away over 200 more. have two colonies across the street which I have to look out for, together with the pupils of the Cushman and Ingraham Schools. We have in roll all told about 2300 pupils, so you see that it requires a lot of room to accommodate them all."

ANSON'S PETS PUNISHED. Have Not Won a Game Since They Last Left the Windy City.

Boston, Sept. 4.-Jimmy Sullivan held up Boston's end in the box. He pitched a creditable game. The home team, from almost the very outset, batted like winners. The Chicago men, for three innings, led the 2000 enthusiasts to believe the were going to win. Since the team left Chicago they have not won a game, and as Anson has considerable money wagered in the various cities that he will beat out Boston, New York and Pittsburg, defeat came rather hard to him.

# SWITHIN BROS., Real Estate

Having opened a Real Estate office in Durgin & Merrill's Block, we are prepared to show plans and give prices on some of the finest house lots offered for sale in this city in recent years. These lots are embraced in the following

#### PRESIDENTS' HILL.

This land was formerly the country residence of C. F. Adams. It overlooks the ocean, and the view both seaward and inland is unsurpassed in this vicinity. The grounds are covered with rare and costly shade trees, a very desirable eature of a lot, and the farthest portion of the property is within four minutes walk of both electric and steam cars. Persons wishing a fine lot in a first-class ocality would do well to inspect this property before purchasing.

## CRANCH HILL.

Probably better known as Adams' Field. This property embraces the present links of the Quincy Golf Club, and is situated in the heart of the city. The land is high and dry, and the streets through the property are wide and straight. The lots are good size, the prices moderate and terms very reason able. No better lots for a man of moderate means have ever been offered in

## WEST QUINCY.

Land formerly known as the Dell estate on Wiffard street, borders on Bigs Hills reservation; is handy to works, and is less than five minutes' walk to electric cars, West Quincy depot and schools. This property comprises about

HAVANA, Sept. 5 .- A banquet was given last night at the Casino Espanol by the Regional societies to the Spanish officers lately arrived in Cuba. The banquet was presided over by Marshal Campos. Senor Guzman, ex-president of congress, made a patriotic speech on the theme of sovereignty, which he said could not exist without force.

Spain, he said, had a right to use force to carry out her resolution to retain Cuba. Spain does not depend upon material in-terests, but responds to tradition, and coninues to work to represent in Cuba the highest expression of moral and patriotic sentiment, and in concert with the civilized nations to demonstrate the power of Spain. Spain has sent 80,000 of the flower of her army, and is preparing to send 25,000

Vivas were given by the company for the king, the queen and the army. Marshal Campos, rising to reply, said:

"I lack eloquence to reply to the speech of Senor Guzman, and can utter only a few heartfelt words of thanks to Senor Guzman for his personal praise. If I have done anything for my coun try, the thanks are due to Providence and not to me. In the name of the army, I return thanks to Havana, to the Span ish casino and to other bodies for their enthusiastic reception of the troops.

"The president of the cabinet—Senor Castilho—when Antonio Maceo landed in Cuba, declared that Spain would sacrifice her last man and last peseta before permitting separation. The government will send more than I have asked. As Senor Guzman has said, Spain has no material interest to defend in Cuba.

'What would Cuba be without Spain? The division of the insurgent factions already foretells that the negroes are disputing for dominion over the whites. What would happen were Spain absent?

So Bookkeeper Lee Stole Money From the Hampden Bank.

Admits That He Had Expected Discovery.

The Deposits of the Institution, However, Believed to Be Intact.

SPRINGFIELD, Mass., Sept. 6.—People in his city will be amazed to learn that Louis A. Lee, bookkeeper of the Hampden National bank, was arrested yesterday by a deputy United States marshal. He is charged with being short in his accounts. Lee was brought to this city last night, accompanied by vice President James Noble and Cashier Sackett, and was arraigned before United States Commissioner John L. Rice, and was then taken to Boston.

Lee admitted that he had been expecting liscovery for some time, and that his arest was not a surprise to him.

The First Suspicion was directed toward the hitherto trusted bookkeeper last week, and an investigation proved the suspicions true. Lee

knew nothing of the investigation. While it cannot be learned to what ex-tent he has stolen, it is known that the deposits have not been plundered and that the funds of the Business Men's associa-tion, of which Lee was treasurer, have not

> Unconstitutional Statute. As the comptroller does not act under the directions of the secretary of the treasury or the president, his decisions within the sphere of his jurisdiction being final and conclusive upon the executive branch of the government, it followed that the power to resist the execution of an uncon-

Bostonians' Narrow Escape From Being Goose-Egged by Chicago.

Boston, Sept. 5.-A decided change has come over the Chicago team. The change was effected by Anson, who shook the entire batting order of the nine, which worked admirably. ## Made To Wear Carpetings.

This appeals to such people as understand and appreciate the worth and satisfaction of owning good carpetings. In buying a carpet these things should be considered fully as much as the price, the closeness of weave, the number of threads the weight, the quality of wool, the reliability of the colorings as well as general durability.

It's only the old and experienced millers that give these item the thought they should receive. Unscrupulous manufacturers pay attention to looks and let the rest take care of itself. One week vious to the recent advance in price, we receive I from the o'dest an most reliable mill in the country over one hundred rol's of wools an tapestries, and while they last we offer the greatest bargains eve heard of in carpetings. All Wools, 47 1-2 cen's; extra Super W Ingrains, 52 1-2 and 57 1-2 cents; best Lowell's, 65 cents; splen Wool Tapestries, 49 cents; heavy Tapestries, 55 cents; extra heat Tapestry Brussels, 65 cents. This is the turning point in price carpetings, and from now on prices in all markets will advance rapi y. Don't miss this opportunity.

It certainly looks as if the Quincy Association would keep in the lead in practical orses in the South Weymouth races Monentirely new field which it is proposed to enter, and the Wollaston boys will be the gainers thereby. Mr. W. G. Cortbell of Wollaston, has again manifested his interest in educating the youth to love the beautiful. Mr. Corthell has offered to Sloyd, the Swedish system of wood work for schools.

Mr. Corthell makes this proposition on condition that the class be established in Wollaston and that not less than \$200 be raised for the running expenses of the

partment. The idea is an entirely new one, and will be the first of the kind undertaken. The plan was first suggested in the August number of Quincy Young Men. It was endorsed editorially by the Young Men's Era of Chicago, by Mr. Hodge, educational Secretary of the International committee, and several of the largest associations have written asking for more kindergarten. detailed information.

Both Averse to Interference At the corner of Fourth avenue and Smithfield street a lady from Glenwood entered a crowded outgoing car. The conductor knew who she was, and that she resided in Glenwood. He suspected that she had made a mistake, and that she thought she was on a Second avenue car, so he crowded up the aisle and po-

The conductor said nothing more, and the car sped along through the dark, crossing the Monongahela through the covered Tenth street bridge and rapidly putting space between it and Glenwood. A Patriot's Dinner.

Marion, the American Revolutionary general, once feasted an English officer on sweet potatoes baked in the fire by a darky and served on a strip of bark, with a log for a table. It is said that the officer resigned and went home, saying it was no use to try to conquer people who could live on sweet potatoes.

Arranging Preliminaries. PHILADELPHIA, Sept. 6 .- John C. Bell is in correspondence with Dr. Brooks of Harvard, in reference to a revision of the

playing rules to govern the Pennsylvania-Harvard match this fall, with a view to preventing injuries to players. In speaking of the matter Mr. Bell, said: "I think the changes probably will be these: On a punt which is caught, the back catching must make either a free kick or take a down; a fourth official be introduced, and the officers chosen for the game must be ratified by the faculty committees of both colleges. The effect of the first will be to do away with the running of a back for a catch. This will protect the back from needless tackling, unprotected as he is when catching."

Declaration of Their Beliefs and Principles.

Most of the Old Board Re-elected---Syracuse Named For Next Convention.

BINGHAMTON, N. Y., Sept. 6.-President Green called the delegates of the Republican State league to order yesterday. He made no formal address, but talked to the convention at some length, saying that the league clubs were never in so good condition as now, and so well equipped to conduct a successful campaign.

He warned the clubs to keep aloof from factional fights in the party and urged them to support the regular organization in their respective localities and to bear in mind that it was not their province to nominate candidates, or to adopt platforms, but rather to uphold the party organization and to roll up majorities for the ticket.

Assemblyman Brown introduced a resolution calling for the establishment of a state and national insurance fund for workingmen by taxation of corporations and individuals. The resolution was adopted. Platform of Principles:

First-We believe that the desires and demands of the few should always be subordin-ate to the welfare and best interests of the many; that the administration of President Cleveland has been in direct opposition to that principle, with depression, discouragement and disaster as its fruition. Second—We believe that healthful prosper-ity begets contentment and happiness; and that upon the contentment and happiness of

the masses depends the perpetuity of our in-stitutions. We, therefore, assert it to be the first outy of our government, both state and national, to protect the homes of the wage-earn Third-Recognizing the mutual dependence

or a demagogue.

Fourth-While deploring the terrible cost of the lesson, it is a matter of rejoicing that the American people are now fully convinced that the Republican doctrine of protection of e industries is a truthful fact instead of a

faise theory.

Fifth—We believe in such a standard of valany other dollar.

Sixth-We heartily commend the action of sixth—we heartly commend the action of the police authorities of New York city in closing the saloons on Sunday. We believe in the American Sunday, and that the traditions of the Republican party favor the preservation of all those conditions and principles calcording to the deed of gift of the Archive the saloons of the saloons on Sunday. And, while this league still adheres to its constitutional provision against attempting to dictate nominations for public office, it will, at all times, reserve the right to speak plainly on any and all questions affecting the well-being of society and our fellow citizens. Seventh-In our opinion the time has come

for foreign nations to understand that the United States has both the disposition and the ability to maintain its dignity and protect its citizens in every part of the inhabited globe. Eighth—Resolved, that we favor the postponed appropriation of \$9,000,000 by the state government for the improvement of the canals

Ninth-The administration of Governor Morton and all the other state officers has been honor to the party that placed them in office. Tenth — We congratulate the Republican party upon the unity and general good feeling existing in its ranks, and now pledge a hearty co-operation in carrying to an overwhelming victory the ticket that shall be named at the oming state convention.

Nominations for officers being in order, Mr. Jones named for president, George E. Green, the present incumbent, who was elected by acclamation. Other officers were elected as follows: Vice presidents, Edward Merritt, Jr., A. H. Steele and Colonel F. G. Ward; secretary, Frederick, J. Bryant, (re-elected); treasurer, A. B. Colvin, (re-elected).

The convention then adjourned to meet n Syracuse in 1896.

Action Begun on Fraker's Case. RICHMOND, Mo., Sept. 6 .- Dr. Fraker, who is in jail here on the charge of attempting to defraud insurance companies, was recognized yesterday by a score of people. The information leading to the arrest of Dr. Fraker has been filed. There are five counts in the information, the aggregate penalty being 35 years in the penitentiary. It is believed that the defense will waive examination and allow the doctor to be bound over to await the action of the grand jury, which meets in

FAILED TO EXPLODE. Red-Mouthed French Anarchist In the Hands of the Police.

PARIS, Sept. 6.—De Rothschilds' banking house in this city was the scene yesterday of another nihilistic attempt. At 3:20 o'clock a man entered the bank from the Rue Lafitte. A detective who was on guard there saw the stranger trying to light the fuse of a bomb with a cigaret. The ashes on the cigaret prevented the ready ignition of the fuse, and the man, seeing that he was observed, threw the bomb upon the carpeted floor. The weapon did not ex-plode, and the man was arrested.

At the police office the prisoner refused to talk and was taken to the Central prison. There he became more communicative and openly professed anarchistic theories, declaring that he intended the bomb as an anarchist demonstration. The recent explosive letter received at the Rothschilds' bank, and which cost Baron Alphone de Rothschild's confidential clerk an eye, he said, was only a hoax.

The surprise of the surprise received at the received at the recent explosive letter received at the Rothschild's bank, and which cost Baron a slower era. Thus the new century approaches, escorted by a new woman in a new shirtwaist."

The man told the commissary that he made the bomb himself. He expressed regret that he had not taken enough pre-cautions to ensure an explosion. He had tried to light the fuse with a cigaret, but arrival of the detective had compelled him to throw the bomb hastily, and by that act he had not expected to explode it. He said that the bomb contained chloride of potassium. "However," he added, "you are cunning; open it and satisfy yourself on that point." He spoke clearly and in a decided tone.

Upon being further examined, he said that the bomb was composed of chloride of potassium and blasting powder, and contained no projectile. His act, he said, was a protest against the proceedings of the bankers. He had traveled throughout France, never remaining long in the same place, in order not to awaken suspicion. He professes a contempt for work, since everyone lives at the expense of society.

The news of the outrage spread rapidly in Paris, and many fear that it protends a renewal of an active anarchist campaign The culprit was miserably dressed, and a razor and brush were found upon him, so it is supposed he is a barber's assistant. of labor and capital, we brand any one who seeks to antagonize the two as an ignoramus tempted outrage. tempted outrage.

Swindling Nipped In the Bud. PHILADELPHIA,, Sept. 6.—By the arrest of Robert Ritson, the police think they have unearthed a system of swindling by bogus drafts, printed in the names of 11 different national banks and drawn to the correspondents of those banks in Louisville, Boston, Milwaukee, Indianapolis Chicago and on five banks in New York city. Last week Ritson called at the printing house of Williamson & Beecher, and, representing himself as the agent of a cancelling punch, negotiated for the printing of several thousand national bank checks, which, he said, he meant to

use in advertising his patent punch.

Bloodthirsty Spaniards. NEW YORK, Sept. 6.—The Press today says: Atrocitles by Spaniards, as revolting as those committed by the Japanese at Port Arthur, have just been reported to the Cuban revolutionary party in New York. Disgrace to Our Navy.

WASHINGTON, Sept. 6.—The idea of attempting to dock the battleship Indiana in the United States, preliminary to her speed trial, has been abandoned, and Mr Cramp is now about to arrange for docking the ship at Halifax. It is a matter regret to the navy department that this ship must be sent away from the United States to be put in shape for service, but in view of the condition of our own docks there is no help for it.

It is safe to say that no previous contest penitentiary or even indicted. for the America's cup has ever aroused such intense and widespread interest on both side of the Atlantic as the races between the Defender and the Valkyrie III. Not only are hundreds of strangers in town from Boston, Philadelphia, Baltimore, Chicago and many other cities of the far west, eager to witness the grand struggle between the two speediest yachts ever built, but the number of foreign visitors has never before been exceeded.

The hotels are packed with guests and every available excursion steamer in the Unusual precautions have been taken the currency, and his wife. by the cup committee to have the course patrolled so that the racing properly patrolled so that the racing yachts shall not be interfered with by the

be no cause for complaint, as there was on several occasions during the international races two summers ago. English Cousins Dubious,

It has leaked out within a day or two that has leaked out within a day or two that those in charge of the Valkyrie are not quite satisfied with the stability of their craft in a strong breeze. They have said that her angle of heel under such conditions is not well defined. That is, when she is in a breeze she does not act like other boats after reaching her bearings,

This fact, if it is a fact, is disquieting and makes those in charge all the more earnest in their wishes for light, watting airs during race days, whatever may be Valkyrie's Skipper Wishes well not to place too much reliance upon these rumors, although there are reasons for believing that this failing of the Valkyrle is causing no little concern to those

who are intimately connected with her.

There is also the same reason for believing that Captain Cranfield has, down in the bottom of his heart, a feeling that the Valkyrie may not show herself to be the wonderful racer which her admirers have ments for the opening race of the series of international races for the America's cup Captain Cranfield has recently said, it have been completed, and the people of would seem that he is not at all sure the Valkyrie will do the runaway act with the Defender, leaving her from the first race a

This well-known British skipper is reported to have recently said to a friend, "I shall be glad when the whole thing is over. I shall not let it worry me any more. The boat does not seem to go as she ought to, and I cannot help it." If this is what Captain Cranfield really be-lieves, then, indeed, the Valkyrie folks have not got a sure thing after all, and the American craft may have a pretty good chance of successfully defending the cup, which has been the opinion of all those who have had opportunities to ascertain something of the real performances of the aluminium boat.

LONDON, Sept. 7.—The Chronicle says this morning: If Valkyrie III does not hoist the winning flag today or on Tuesday, we shall probably never build a yacht that will do as well in the dry air of American waters as in the moist winds of Albion. ## CROP OUTLOOK.

Reviews of Bradstreet and Dun Both Give Glowing Reports.

Reaction Against Rapid Advance In Prices.

How It Fares With the Manufacturers of Different Commodities.

NEW YORK, Sept. 7.—Bradstreet's today says: Favorable crop reports from nearly all directions and a continuance of the boom in steel and iron continue to charac terize the general trade situation.

Latest advices as to the corn crop have replaced anxiety with confidence in the larger estimates of the size of that crop and satisfaction with the outlook for trade this autumu.

Harvesting and threshing are interfer-ing a little with business in the spring wheat country, yet Duluth, Minneapolis and St. Paul jobbers in general lines are pushing for new business. In South Dakota and Washington farmers show no disposition to sell their grain. California reports perfect weather for harvesting.

What Dun & Co. Have to Sav. R. G. Dun & Co.'s review says: There is no real reaction in business. Gains which were recognized as temporary are vanishing, but there remains a decided increase over last year at date, although prices average 8.8 per cent lower than a

year ago.

It needs no keen observer to see that the reaction against rapid advance of prices is strong. Hides were the first to rise, but a decided break has come. Coke was suddenly raised to \$1.40, recently sold at \$1.10. Wheat jumped over 20 cents to 4, but is now slow of sale at about 65. Wool was late in rising, but has lost about 1/8 of a cent in average price within the past fortnight.

Iron still rises, the miners' strike having hindered shipments of ore, but with troops guarding the ore begins to move. Cotton is strong, but has paused. The general tendency to curtail purchases where prices have notably advanced grows clearer in boots and shoes, in wool and in some products of iron.

In the boot and shoe industry many shops are discharging hands, and in woolen manufacture a few works are closing for want of orders. Shipments of boots and shoes now fall below last year's, and except in split shoes there are but few orders. Dealers are distinctly slow to buy at advanced prices. But holders of western hides who refused 9% cents a fortnight ago are hunting for buyers at 9

Sales of wool, which averaged over 10, 000,000 pounds a week when great speculative stocks were being taken, have shrunk to 5,380,500 for the week. The average of 304 grades is now 14.68 cents, against 14.48 a year ago. Manufacturers buy slowly, because business in all men's goods is dull, particularly in medium and ow grades.

Copyright Concessions to Canada. LONDON, Sept. 7.—The Times says this morning that Mr. Newcombs, who came to London on behalf of Canada to secure a change in the copyright law, is carrying home certain modifications of Canada's demand with regard to the copyright act. It is understood that these recognize the right of copyright in Canada to every peron who has any right to copyright in the United Kingdom. There are also other concessions, which, it is believed, will sat-

sfy Canada's expectations. Death of a Distinguished Journalist.

H. W. Beattie is modeling a figure of St John, which stands eight feet high. Joss Bros. have started their compressed

air plant and polishing mill. Many of the manufacturers report that business is looking up a little.

Messrs. Prout Brothers are running with a full force of men and are more busy than usual for this season of the year. The McCormick monument which they are making to be placed in Mount Calvary cemetery is nearly completed. It will cost about \$2,000.

Fuller, Foley & Co. have just completed a very handsome monument. The bottom base is of fine cut Quincy granite upon which rests a square die of highly polished snow-flake granite and on this die rests a polished ball of snow-flake granite whose diameter is 2 feet 7. This firm makes a specialty of the snow-flake granite which is really very handsome and durable.

—All the Year Round.

Knew the True Norwegian Flavor. My daughter, who plays a great deal, has devoted most of her time to the German composers. I suggested that she try something by a Norwegian composer by way of variety. She got Grieg's "Wedding March." Our two housemaids are of Norwegian extraction, but were both born and raised in this country. Presumably neither of them had ever heard this air or knew anything about the man who composed it. Neither had ever made any remarks about my daughter's playing and showed no special interest in it, but the other morning the second girl said to my daughter, "Ida likes that piece you played last night." She was asked to what piece she referred and replied, "That new one." My daughter began to play the Norwegian wedding march, and she said: "That's the one. Ida thinks that is the prettiest thing she ever heard you play." Chopin, Beethoven, Mozart and all the rest had apparently all gone clear over Ida's head, but the moment she heard a composition containing the true Norwegian flavor she recognized it instinctively. -Chica-

Victim a Well-Known Conductor on the Consolidated Railroad.

PROVIDENCE, Sept. 7.-Last Tuesday Henry R. Warner, a conductor on the Stonington, Conn., disappeared from home. He had been paid off the previous day, and as he did not come home that night it was feared he had met with foul

A careful search was made in this part of the state for him. Wednesday he was traced to Oak Lawn. Thursday he was in this city, but his friends could not quite locate him. Yesterday his dead body was found in the new extension of Roger Willtams nark He had been in and about the park, and was seen at 1 o'clock sitting on one of the benches near the entrance.

About 4 o'clock the workmen who were excavating for the new lake heard a pistol shot about 500 feet from where they were, and Orrin Mowry, the foreman, went to investigate. He found a man lying on his back, with coat and vest off and a revolver in his right hand. He notified Superintendent Hathaway, and the latter, with the aid of a policeman made an investigation. The man was

Deliberate Self-Destruction. He had sat down on a knoll, placed a

38-caliber pistol to his right temple and sent a ball completely through his head. The papers found in a pocket disclosed the body to be that of the missing Warner. Among his effects was a railroad circular, on the back of which the following letter was written just before he killed himself: Please notify my brother, A. W. Warner, Hills Grove Tower, at once. Be sure and give Nell those little books in my vest pocket. They are for her. Ask her to forgive me and she will. Nell, marry again, but be careful whom you get. Be kind to the sweet ones. Nell, I am not orazy or drunk. You and the little ones will be better off without me. I am doing it for your sake, not mine. Now comes the hardest part of this thing. Nell, goodby,

but it is done. The body was viewed by Medical Exminer Palmer, and then removed to the

city morgue.

Warner leaves a widow and four small children. He was 84 years of age.

## LOOKS LIKE MURDER.

Police Working on That Theory In Mabel Doyle's Case.

Body Was Found.

Both Under the Influence of Liquor and Acting In a Susplcious Manner.

BOSTON, Sept. 9.-The dead body of Mastreet, Dorchester, was found Saturday on the flats of the Neponset river, near Atlantic, with her head sticking in the mud. Whether she was accidentally drowned, committed suicide or was murdered is as yet a matter of conjecture, but the indications point strongly to foul play.

A startling discovery was made yesterday by the officers of division 11 and the clew, which may or may not have some bearing on the murder theory, will be assiduously followed up.

Immediately after the finding of the body Saturday morning, Acting Captain Hunt of division 11 began an investigation of the many stories and alleged clews that had been brought to his notice. As an assistant in this work he detailed

Officer Sumner Foster, and the two have worked indefatigably to solve the mystery surrounding the girl's death. It was not until yesterday afternoon, however, that they found any clew that would lead to the supposition that Mabel

met with foul play, or that would even throw any light upon the suicide theory. zen of Neponset) was standing on Neponset avenue, near Walnut street, about 1 o'clock Saturday morning when two men, somewhat the worse for liquor, came along and inquired what road they should take for Braintree.

Both Men Had Been Drinking. One of the men had been drinking heavily," said the citizen in question, in his conversation with Officer Foster, "and the other was slightly intoxicated.

"I told them to take the straight road out over the bridge," he continued, "and then they asked me if Wollaston was on the same road. To this I replied: 'Yes,' when the one most intexteated asked me how far it was. I told him about five miles, but with an oath he contradicted friends have not since heard from them. my statement, and said the distance was nearer 20 miles.

"At this the other man grasped him and with grief. dragged him along, both going in the direction I had pointed out. They also said they had walked all the way from

give of the men was that one was quite tall, and the other much shorter in stature. As soon as Lieutenant Hunt had heard this story he communicated the information to Mabel's parents, and scarcely had Mr. Dovle heard the officer's words than he replied: "Why, I saw those two men myself," and then he went on to say that shortly before 1 o'clock Saturday morning he was standing on Neponset avenue, a short way above Chickatawbut street, when he heard the boisterous voices of two men, evidently under the influence of liquor, and who seemed to be approaching from the direction of Field's Corner.

Not wishing to be seen, but thinking that possibly they might know something of the whereabouts of his little girl, for whom he had been searching all the evening, he stepped behind a neighboring tree and waited until they passed by. The men, he says, answered the description of the two seen by the Neponset citizen above alluded to.

The seeing of these two men by the person as indicated at the hours stated and within a short distance of the spot where the body was found, is looked upon as a had been married only three months. most important clew by the officers, and the first one which has given then any basis to work upon.

DISASTROUS FLAMES. Boston's Masonic Temple Completely Gutted.

Great Loss of Property. Boston, Sept. 9.—Boston's magnificent

Masonic temple, one of the finest, if not the finest, in the world, was nearly destroyed by fire Saturday.

The building was filled with costly and beautiful mystic paraphernalia, rare works of art, relics of almost untold value, expensive regalia and uniforms of fine fabric, resplendent with gold and silver decorations and gleaming with jewels. A large part of this irreplaceable property was destroyed, and much more was damaged by the billows of water which came from the nozzles of a hundred lines of fire hose. Yet so much was saved that the fraternity may be congratulated.

The total loss will reach \$300,000, \$60,000 of which was on the upper floor, where the fire did the greatest damage and where the water finished what the fire had left

Crooked Motorman.

SPRINGFIELD, Mass., Sept. 9.- The police made the capture of a passer of counterfeit money yesterday, which may result in unearthing the gang which has been flooding New England cities with counterfeit silver for the last two months. The street railway company had received a number of the coins recently, and traced them to Daniel J. Doyle, a motorman in its employ. Doyle claims that he bought them of a young stranger for 50 cents each. He had bought \$15 of them, and had put into circulation all but three of them, which were in his possession when he was captured. The police believe that Doyle knows more about the whole affair than he has told.

Hopeful For Pardon. Boston, Sept. 9.-Mrs. Maybrick, the American woman, who is in an English

prison for the alleged poisoning of her husband, still has friends in this country who believe in her innocence. Another effort will be made by her American supporters. Gail Hamilton, who has been one of the most indefatigable workers for the release of Mrs. Maybrick, is now uncause will not be abandoned, however.

Injuries May Result Fatally.

LAWRENCE, Mass., Sept. 9.—James Gib-bons, a conductor on the Lowell, Lawrence and Haverhill street railway, was probably fatally injured last night. Motor-man Adams says that when the car was man Adams says that when the car was portion of which is the key to a vast exat a point between Varnum and Fox's tent of the interior of Alaska, possessing landing, going at a speed of about 12 miles an hour, somebody pulled the bell and called out, "You've lost your connatural harbors, and in a third place they ductor," Adams stopped the car, and Two Men Seen Near Where when he looked around he saw Conductor Gibbons lying in the road, some distance back. The injured man was taken to St. John's hospital, Lowell, in an unconscious condition. It is surmised that the accident occurred while the conductor was collecting fares on the running board.

Lawrence's Semi-Centennial.

LAWRENCE, Mass., Sept. 9 .- Arrange ments for the semi-centennial of this city bel Doyle, 17 years of age, of Chickatawbut have been completed. The celebration will occupy two days, Sept. 16 and 17. It is estimated that the military and civic procession will comprise 10,000 men. Among the organizations parading will be the entire Ninth regiment, 12 companles strong. Bishop Lawrence, after whose family the city was named, will participate in the exercises.

A Sacrilegious Mute.

Boston, Sept. 9.—James Duchney, a deaf and dumb French Canadian, was discovered in the act of robbing St Joseph's Catholic church, Charlestown, before daylight yesterday by Father Mc-Call, who was aroused by the barking of his dog. It was found that Duchney had broken open the heavy chapel door and had stolen several well filled contribution boxes. He was arrested.

ALASKA'S BOUNDARY.

England's Greed of Territory May Lead

BALTIMORE, Sept. 9 .- Rev. Father Barnum, who has recently returned from the able to engage in an active effort in the interior of Alaska, where he spent four years unfortunate woman's behalf, but the in missionary work among the natives, interior of Alaska, where he spent four years gave an interesting interview to a reporter yesterday, regarding the Alaskan bound-ary dispute between the United States and Great Britain. "The claim made by the British govern

ment at the instance of Canadians," said he, "embraces a valuable strip of land, a would give them control of some fine natural harbors, and in a third place they would gain one of the most magnificent sceneries in the world, Glacier bay, which is now beginning to be visited by thousands of tourists from all over the world during the winter months.

"The most practicable route into the interior is from the head of Lynn canal by an overland route of 27 miles to one of the lakes at the head of the Yukon river, in British territory, and thence by a boat down the Yukon to the gold territory in Alaska. It is the only route in which abrupt mountains do not obstruct the way, and should a railroad ever be built into the interior, it is probably the only route it could follow.

"Lynn canal has several good, natural harbors within the strip claimed by Great Britain, and it is safe to say that the Canadians would soon control the whole trade into the interior, if Great Britain gains her point."

Peru's New Cabinet.

LIMA, via Galveston, Sept. 9.-Lima presented a gay spectacle in honor of the assumption of the office of president by Senor Nicola Pierola, who was recently elected to it. American Bible Society Hampered In Their Missionary Work.

Minister Terrell Enters a Protest to the Porte.

Armenians Submitted to Further Outrages at the Hands of Their Enemies.

CONSTANTINOPLE, Sept. 10 .- The Turkish authorities of Asia Minor, notably at Bevrout and Sassoun, are again subjecting packages, sent by the American Bible house of this city for the mission stations in Anatolia, to fresh examinations and delays at the ports of arrival, notwithstand. ing that all packages are carefully examined by the customs authorities and duly sealed by that body, so that a second examination at the port of lading becomes quite unnecessary.

Not only are such cases of frequent occurrence, but the customs authorities at Beyrout have stopped a consignment of 6000 Bibles and other books, duly authorized to circulate in the Ottoman empire, on the pretext that each book has to bear the stamp of the ministry of public instruction, this being quite contrary to the convention existing on the subject between the United States and the porte. Mr. Terrell, the American minister, has addressed a note to the porte protesting against this violation of the convention and demanding the release of the consignment in question

Horrible Tale of Outrage. A dispatch to the London Daily News from Kars, Armenia, says that the entire district of Kemaks is surrounded by Turk-ish troops dispatched by Zekki Pasha under

The villages of Carni, Tiruguener, Tortan, Horopoul and Marig are reported to have been completely sacked, and the population, aggregating 5000 people, were foully treated. The men were tortured and the women and children ravished. The four monasteries of Avakwauk, Saurphop, Therverithhoga and Soupphagop were sacked, and the altars and images were destroyed. The excitement

and alarms are universal, Authentic information from Moosh is to the effect that an anti-Christian society of Turkish officials has been formed there and at Bitlis with the avowed intention to slaughter the Christians in the event of the acceptance by the porte of the scheme of reforms presented by the powers. with a fine parade on the arrival of Commander-in-Chief Lawler and staff yesterday. Department delegates and posts have yet to commence to come in, but rough estimates from the various depots show that fully 35,000 strangers have arrived. The camp has been set out like a miniature city, and affords quarters for 200 posts.

Admitted His Guilt

PHILADELPHIA, Sept. 10. - Policeman Cullen was arrested last night while on duty, charged with highway robbery. The victim was George C. Smith, a Brooklyn saloon keeper. Smith committed suicide shortly after the robbery, it is thought from brooding over his loss. Cullen was taken to headquarters, where he was stripped of his uniform and locked in a cell. He admitted his guilt.

Fire Still Smouldering.

HOUGHTON, Mich., Sept. 10.-The situation at the Osceola copper mine remains about the same. Captain Edwards and a couple of men went down as far as the second level in shaft No 1 to make some repairs to the pump. Everything appeared to be clear there, but after the men had been working for a while, they felt themselves being overcome by the gas and

A Brutal Assault.

PHILADELPHIA, Sept. 10.-Mrs. Katharine Frasch and her 16-year-old daughter were the victims of a mysterious murderthe plea of arresting Armenian revolutionous assault at their home. Mrs. Frasch had her skull fractured over the left eye and also in the back of the head, and her daughter had her skull fractured over the left ear. A blood-stained coupling pin, found on the floor of their room, is supposed to have been the weapon used in striking the blows, and the police are looking for Jacob Frasch, from whom Mrs. Frasch obtained a divorce two years ago. The fiend who committed the assault left no clew behind, and it is only because they heard that Frasch had threatened to harm his wife that the police may arrest him. Mrs. Frasch is engaged to be married a second time. Both women are se riously injured, but they will probably re-

As at a Presidential election, to the approval of the Council: a voter in caucus should have the privilege of voting for A or B delegates, and it will be much more satisfactory if he can make one cross for a group, rather than ten or a dozen marks for delegates who may or may not be favorable to his candidate.

THE BURDEN of work for charity will remain with the old citizens, unless effort Souther. is made to interest our new population of which the city is so largely made up within recent years. It is best that all good work shall include all our people. The City Hospital is not yet a reality to very many. If we had a big public hall it would be easier to gather together once a year, in early fall, to help make a fete for the Hospital a social as well as a financial success. Efforts have been made to build a hall, but as yet nothing has been accomplished. Quincy needs a large place for public gatherings. This is a question for some generous, wealthy citizen to meet. A hall ought to be a good business investment here. When shall we have one?

Important Sale.

One of the largest auction sales of real estate ever held in Quincy is announced for Saturday, Sept. 21, at which time Auctioneer Johnson will sell the homestead and all the property of John E. Washington street, opposite the residence Mr. John Tucker, Mrs. W. M. Woodhouse of John R. Graham.

This is a most beautiful estate and will afford an excellent opportunity to secure good property.

The homestead is a handsome building I have had little opportunity to speak on the schoolhouse question but I have advocated wood when opportunity offered. Little Mabel Doyle Was Not the Victim of Murder.

Her Death Resulted From Drowning Alone.

Medical Examiner Gilbert Yields to the Request of the Police.

Boston, Mass., Sept. 10.-Medical Examiner Gilbert held an autopsy at Neponset at midnight upon the body of little Mabel Doyle, whose mysterious death in the Neponset sives Friday night has caused so much conjecture. The result confirms the opinion originally held by the examiner after his first glance at the remains-that the unfortunate girl met her death from drowning. The autopsy discovered no marks of violence or foul play of any description. This does away with all suspicions of murder, and shows that

## WEATHER AND CROPS.

Dearth of Rain the Burden of the Farmer's Song.

Cattle Pasture Failing In Feed In Many Parts.

Potato Rot Checked to a Great Extent and Corn Flourishing.

Boston, Sept. 10 .- The New England weather bureau issues the following bulletin for the week ending Sept. 9: Light rain came on the southern coast on the morning of the 7th, and light local

showers occurred over south-central districts on the 9th, but during the rest of the time fair weather has prevailed throughout New England during the week just passed. There has been much sunshine, and the days have been warm, but the nights cool. There were light frosts on many lowlands on the morning of the 8d, but no damage has been reported. The weather has been very favorable for har-vesting, and crops have ripened very fast. Crops that have still some growth to make, however, need rain badly. Fall plowing is being delayed because the ground is too dry, and recently sown seed needs wet weather to insure it against the winter frosts. Pastures are failing in feed, while in most sections there is com plaint of failing wells and springs. Its a little too dry for the best curing of tobacco, but is just the weather that corn has needed, however, and the potato rot has been held in check to a great extent.

Lack of Moisture Noted. The weather has been warm and dry, with plenty of sunshine in Maine, and corn and other crops have pushed along finely, but the pastures are beginning to feel the want of rain quite a good deal. The feed is reported short in many places. Potatoes are being dug, and are rotting quired properties of ether, chloroform, and dangerous qualities of these drugs. It is slightly on heavy soil. Apples are reported scarce, but of better quality than last year. Grain is being threshed, and where the rust struck the stalks the heads slightly on heavy soil. Apples are re-ported scarce, but of better quality than are not well filled. The surface of the ground is so dry that it is in poor condition for fall plowing.

Scant Pastures as a Rule.

Pastures are getting short in most parts of New Hampshire, and in Sullivan and Cheshire counties, especially, the grass is dried and burned very badly. In some pastures there is practically no feed for cattle, In Belknap county it is reported to be pretty good, and in parts of Rockingham county the cattle are still getting a good supply of feed from the pastures. In Cheshire county the second crop of hay is also almost a failure; and in other places the dry weather has had an injurious effect upon it, though not to a serious extent. Early sown grass seed is suffering for rain in southern Rockingham county. The dry weather has had a favorable effect in holding the potato rot in check, so that a comparatively small mount of decay is found in digging. Corn is ripening very well with the warm, sunshiny weather, although the nights are too cool for this crop. It will very soon be beyond danger from frost. A little damage was done in northern sections on the morning of the 3d by frost. Apples are dropping badly where the driest weather prevails. Beans are ripening up finely.

Vermont Farmers Cheerful One correspondent in Chittenden county, Vt., reports another fine week for growth and harvesting, and adds that farmers have little to complain of this eason. Dry, sunshiny weather has pre valled during the week, and though the heavy dews have given some relief, the top of the ground is getting very dry Pastures are reported short and wells and springs are low. Crops are ripening very fast and harvesting is going on. Silos are being filled and field corn cut. There is but few reports of decay in potatoes, and they are generally pronounced of very good quality.

Good Harvesting Weather. The week in Massachusetts is reported to be a real harvest week, with warm days. but cool nights, plenty of sunshine and no rain. All crops are ripening fast, and will soon be out of the way of frost. One correspondent in Hampshire county reports that peaches and grapes are ripening too fast and are being forced ahead of their eason. As a consequence, peaches are rotting badly on the trees, worse than for any year of the past 20 in his own grounds western counties especially the continued dry weather is being felt on newly seeded pieces, pastures and old fields. If it continues much longer it will injure the hay prospect for next year. Wells and springs are also reported very low and in some instances are entirely ex hausted. Apples are coloring well, but are reported of poor quality in some orchards. The tobacco is curing too fast, and needs more moist weather and rain.
The cranberry harvest is going on rapidly with excellent weather conditions. Th erop is being secured in fine shape. Haying on the salt marshes is progressing finely. Field corn husking has begun, and one correspondent in Hampden county reports no soft corn found in husking 100 bushels-all prime, solid ears.

Rhody Running Dry. The week has been favorable for crops in Rhode Island, although it is getting too dry in many places, no rain having fallen during the week. Corn is being cut, potatoes dug and onions gathered. Damage From Grubs.

The weather has been very favorable for harvesting in Connecticut during the week, but it is too dry in all sections. Cabbages, turnips and late forage crops that have their growth still to make are feeling the effects of the dry weather quite a good deal. Pastures are getting short, and fall sown seed is being injured. In many places there is no feed in the pastures. The white grub has done considerable damage to corn in Fairfield county, producing small shrunken kernels and improperly ripened stalks. They are eating potatoes badly now where planted on turf land, and in some fields disfiguring nearly a quarter of the crop. Tobacco i reported all harvested in good condition, with favorable curing weather up to date. In most places the crop has been quite free from damage of any kind, and there was plenty of sunshine in the last stages of maturing. Grapes are ripening and are of excellent quality. Corn is being cut and is in good condition, though not filled out well in some fields. Apples con-tinue to drop badly where drought is being most feit. Potatoes continue to rot slightly, but the dry weather has held the disease in check to a great extent.

# SWITHIN BROS., Real Estate

Having opened a Real Estate office in Durgin & Merrill's Block, we are prepared to show plans and give prices on some of the finest house lots offered for sale in this city in recent years. These lots are embraced in the following killed Edgar T. Parker with the same tracts of land:

## PRESIDENTS' HILL.

This land was formerly the country residence of C. F. Adams. It overlooks the ocean, and the view both seaward and inland is unsurpassed in this vicinity. The grounds are covered with rare and costly shade trees, a very desirable feature of a lot, and the farthest portion of the property is within four minutes' walk of both electric and steam cars. Persons wishing a fine lot in a first-class locality would do well to inspect this property before purchasing.

## CRANCH HILL.

Probably better known as Adams' Field. This property embraces the present links of the Quincy Golf Club, and is situated in the heart of the city. The land is high and dry, and the streets through the property are wide and straight. The lots are good size, the prices moderate and terms very reasonable. No better lots for a man of moderate means have ever been offered in

#### WEST QUINCY.

Land formerly known as the Dell estate on Willard street, borders on Blue Hills reservation; is handy to works, and is less than five minutes' walk to electric cars, West Quincy depot and schools. This property comprises about

#### HILLSIDE TERRACE.

we want. While the Malden postmaster endorses the scheme, the postmasters at Lynn, Newton, Watertown, Wakefield and Woburn are opposed. Postmaster Tarleton of the Watertown office puts it well in an interview with the Journal. He says:

"The consolidating of the post offices around Boston under one management would not in all probability improve the postal service in those towns which now have an independent office, for the reason that the postmasters in these towns are thoroughly alive to the needs of their espective deliveries and are alert to adopt my new methods which would tend to increase efficiency. They are associated together in the Postmasters' Association, and frequently exchange suggestions and experiences. To unite all these offices under one head would be equivalent to substituting the energies and executive abilities of a dozen men for the ideas of a single individual. Pinel Bros, are the prime movers preached a breezy and pointed sermon rein the new enterprise and they own a cently on the "Woman and the Wheel," number of electrical inventions which will taking his text from Matthew 269: "Why be manufactured here, among them being, trouble ye the woman?" In his remarks

It is in this matter of her privileges that much might be said. How many a woman in marrying becomes a cogwheel in the family, and merely earns her board and clothes. But shall she ride the wheel? Shall she wear the costume which derives its name from the inventor, Bloomer Shall she cast aside for a time the style of her dress which for ages has been in vogue and assume one which is entirely different? I know there is an anti-bloomer society balloon sleeves are matters of discomfort rather than of taste; yet why should it

A Scheme to Include Suburban Cities in Boston System.

Postmaster Coveney of the Boston postoffice is considering the feasibility of including all the cities and towns within ten W. H. Shaw and family are at the miles of the State House in the Boston postal district. Government inspectors have investigated his proposition, but their report, if made, is not public.

Postmaster Coveney says, "The cities and towns which I embrace in the consolidation seem to me to represent a territory which should become a part of the Boston postal district, and after careful consideration I urged it upon the department early in the summer.

"Many reasons exist why a consolidais rusticating in the pine woods of West tion of this kind should be made. It would give Boston a proper rank as a postal district among the large Post Offices of the

WOLLASTON PARK OUTSPOKEN.

A Correspondent Writes on City Council and Schoolhouses. Editors of the Daily Ledger:

Observing in today's issue of the LED GER a cut of the "most persistent advocate of wooden buildings" calls my attention to the fact that the Quincy City Council has its "Svengali" who has hypnotized the members of that body into passing an order for two wooden schoolhouses, in spite of the testimony of the highest authorities on such matters that they should be built of brick. This certainof estate of Charles C. Brackett late of ly does not speak well for the intelligence of that body. Probably the schoolhouses will be built of "Basswood."

The intelligent member from Wollaston who favored two brick buildings but introduced an order for one brick building at West Quincy, and then voted for wooden buildings, may discover that he has built for himself a wooden overcoat. At any rate, he has made a record for himself.

Quincy is not quite so dead as Chelsea but next to it, for we have at last got the order for the schoolhouses; but even the aldermen of that city have no question but that brick is the proper material for their building, but they cannot agree upon a of estate of Daniel Hayward late of Brainlocation; and the people wait.

English Boat Crosses the Line a Short Distance Ahead.

Defender Sailed the Race Uuder Short Sail.

Race Protested by Leader of the Syndicate and May Have to Be Sailed Over.

NEW YORK, Sept. 11.-The second race between the Defender and the Valkyrie for the America's cup took place off Sandy Hook yesterday. Close jockeying between the contestants just before the start resulted in an accident to the American boat, which spoiled the race. The course was a triangular one, 10 miles

to a leg. Less than half a mile separated the boats at the finish, and when it was seen that the American Defender had not only lost nothing in the last 20 miles of the course, but had actually gained, a great shout went up for the gallant struggle a gallant There were cheers for the victor too, al-

though the Valkyrie III was the first challenger since '71 to lead over the home ine, the honor of her performance was ost sight of for the time in the grand effort of the American, for, if it were for nothing else, the American heart loves the hard loser in the fight, and loves him the nore when he loses through no fault of his own. It was a grievous accident that ruined the Yankee boat's chances—an aceident which under the hair splitting circumstances of jockeying at the starting line looked to be unavoidable,

The racers circled in great rings about the great lightship until the signals went up for the course, and then the skippers ok a tighter grip of the wheel. Captain Hank Haff had made a record in seamanship on Saturday, and the English skipper appeared to regain the fame which had receded him.

Battling For Positions. They maneuvered swiftly after the preparatory gun had been fired, and, with the Valkyrie to the windward, Captain Haff made every effort to gain that position. Fall River Manufacturers Refuse Their Request For an Increase.

Employes Will Consider Refusal of Employers.

Doubt Expressed by Labor Leaders as to Probability of Strike.

FALL RIVER, Mass., Sept. 12. - The meeting held by the manufacturers yesterday was attended by about one half the members of the association, but it did not remain in session more than 15 minutes. The sentiment was unanimously against granting any advance, and there was no discussion of any kind.

After the weavers' letter had been read, in which an increase of 10 per cent was asked, a vote was called for. It was decided, without a single dissenting voice, not to advance, then to appoint a committee of four to draw up a letter explaining to the weavers why the sought-for inrease would not be made.

This committee consists of Secretary Cyrus C. Rousenville, Shrove mills; Joseph Healy, Osborne mills; Simeon B. Chase, King Philip mills; Joseph A. Baker, Chase mills. These gentlemen held a meeting immediately after the adjournment of the association meeting, and discussed what would be the best form of a letter to send to the operatives. In substance the letter will say that the manufacturers cannot afford to increase wages at the present time, because the margin for a profitable business is not large enough to warrant their doing so.

Mayor Still Has Order Under Consideration-His Position.

Mayor Hodges when asked this morning f the schoolhouse order had received his but he was considering the matter and looking into the plans. Continuing, Mayor Hodges said he had

been misunderstood for he had made no threats. He did not believe that two good brick schoolhouses could be built for \$56,000, and he would never give his signature for a cheap brick building or a cheap wooden building. In building a schoolbuilding some account of future growth a brick building such as Quincy should have could be built for less than \$40,000. He wanted Quincy to have good buildings and it might have been better to have erected one good building this year.

He thought that \$55,000 would build two good wooden buildings but did not think would only amount to an expression of opinion, unless it influenced some of the ouncilmen to change their vote.

Councilman Who Thinks Next Council Will Not Be Worse.

To the Editors of the Daily Ledger

I would like to suggest to the Norfolk

Downs and Park Improvement Association through your columns that they immediately get up as large a petition as possible requesting the Mayor to veto the order for two wooden schoolhouses passed by the Council Monday night. If work is begun at once the buildings cannot be occupied until next spring and the next Council can easily get two buildings ready for next September. ## PROTEST IS ALLOWED.

The Valkyrie Disqualified For Fouling the Cup Defender.

Dunraven Agrees to Enter

the Race Again. Believes In the Ability and Honesty of the

Regatta Committee.

NEW YORK, Sept. 12.-In an interview last night, Lord Dunraven expressed himself regarding the action of the regatta committee of the New York Yacht club in the matter of the protest made by the De-

fender in Tuesday's race as follows:
"I shall sail this race as a sportsman, because I have no occasion to do otherwise. I believe in the ability and honesty of the regatta committee of the New York Yacht club. I believe that no effort has been made to influence their decision. I believe them to be gentlemen and yachtsmen, and, while I do not care to say anything about the Valkyrie, I yet think that Mr. Watson has also fulfilled his engagement to build for me a boat.

"I do not expect that Mr. Iselin will of-fer a chance for a resail or anything of that sort. While it is very certain the America's cup is lost by reason of the Valkyrie's racing showing, it is not so certain that at some time the cup may not be carried across the Atlantic.

"The appearance of the decision of the New York Yacht club committee did not surprise me. I believe that the Defender made a heroic effort on Tuesday. I do not think that the decision of the New York Yacht club regatta committee is based upon their calm consideration of the matter in hand. I do not agree with

Decision of the Regatta Committee. The following is the letter of the regatta ommittee of the New York Yacht club sustaining the protest of C. Oliver Iselin on behalf of the Defender regarding the foul claimed against Valkyrie:

C. Oliver Iselin, Esq.: DEAR SIR—We beg to acknowledge the receipt of your letter of yesterday, protesting Valkyrie III. We have given the matter care—ships authorized by the last naval approful consideration and believe that the foul oc-curred through the miscalculation of the distance between the two yachts at a critical moment. From our observation, sustained by that of others who were in a good position to see, we find that the Valkyrie, in controvention of section 2, of racing rule 16, bore down upon the Defender and fouled her by the swing of her main boom when luffing to straighten her course. We also consider that Defender allowed Valkyrie sufficient room to windward to pass clear of the committee boat Your protest is therefore sustained.

The following notice was posted upon the bulletin board at the New York Yacht clubhouse last night:

To the members of the New York Yacht club Your committee beg to state that before arriving at a decision on the Defender's protest they endeavored to bring about a mutual agreement between the respective yachts to resail Tuesday's race, but each preferred that the committee should pass judgment on

the protest. Chairman Kane of the committee refused to discuss the action of the committee, or speak on the subject of the races at all, further than to say that he expected both yachts to start in the third race today over a course 15 miles to windward or leeward and return, as on the first day of the match.

gatta committee on the Defender's protest. much as every Briton will regret the decision, the verdict of the committee will be accepted no less loyally by the cisat-lantic public than by Lord Dunraven himself. The owner of the Valkyrie is so thoroughly a sportsman, in the only true sense of the term, that had the protest not been substantiated he would probably have asked for permission for the race to be sailed over so as to win, if win he might, without even the imaginary assistance of an accident. He is not the man to throw away now a remote chance of winning the cup, because a committee of American gentlemen have held his yacht to be in the wrong.

The Post says: Whatever English feelings may be, there is nothing to be done but to accept the verdict. It is possible that Mr. Iselin will offer to resail the race but it is not certain that Lord Dunrayen would accept the offer if made. At the same time, it would be both a graceful and a sportsmanlike course for the American to pursue. The misfortunes attending the first two races cannot but prejudice the sport of international yacht racing. It may be taken for granted that this is the last contest. From a technical point of view we suppose the committee had no

alternative open to them. The Times says: It was thought the udgment might go against the Valkyrie III, but it was not anticipated that the committee would do more than order a resail. That issue most of us here would have desired, and it would also have met the wishes of our sportsmanlike kindred tube at 25 per cent higher than is usually in America It is, however, not quite clear paid by English consumers. The Philadelphia boom collapsed early in the day, but Mr. Magee was victorious after an exciting contest, defeating Calvin M. Bower of Center county by a vote of 170

Apart from the judical contest, the features of the convention were the adop-tion of a platform vigorously endorsing President Cleveland and the principles of the Democratic party and arraigning the present state administration, and a speech by John J. Molony, one of the Philadelphia delegates, attacking William M Singerly, who was the Democratic candi date for governor at the last election.

Change to Be Made In Name and Regalias. CLEVELAND, Sept. 12.-Yesterday's session of the Ancient Order of Foresters of America was largely devoted to the dis-cussion of the proposed changes in the regalias of officers and members. Some radical changes were adopted in this direction. The supreme court took final action on the question of changing the name of the order, and it now stands the Order of Foresters of America. The word "Ancient" was dropped because the organization is American and America is not ancient. While a vote has not been taken on the place for holding the next biennial convention, the members generally con-cede that Denver will be selected.

Navy to Be Increased. WASHINGTON, Sept. 12. - Chief Con structor Hichborn of the navy department has mailed circulars to contractors giving ships authorized by the last naval appropriation bill, in order to afford them an opportunity to prepare their own plans when bids are called for. Proposals will be invited either on the department plans or on those submitted by bidders, but in the latter case they will be expected to conform to general characteristics. It is contemplated in the department's design to drive the vessels by two twin screws.

He has no doubt Bustamente will be imprisoned for crimes with which he is charged, but in view of the position taken by the United States in the extradition cases of the Ezeta followers, it is probable that Salvador will not proceed to extreme measures.

Perhaps the economical members of the Council who wished to save the city a few dollars by building wooden buildings, can figure out just what the net saving to the city will be after paying for the rent; furnishing and heating of

these outside rooms. "Wollaston Park" would say finally that the object of his letter was not to criticise individual members of the City Council, but to call to the attention of the citizens of Quincy certain phases of the situation. The dilly-dallying of the Council over the matter is a disgrace to the city and the final disposition places Quincy far behind other wide-awake and up-to-date cities round about.

BROTHERS MEET AGAIN.

Romantic Result of Rev. E. W. Virgin's Visit to Louisville This Week. A Louisville, Ky., dispatch to the Jour-

nal is of interest to LEDGER readers.

For 30 years two brothers, Rev. E. W. Vir gin of Quincy, Mass., and J. W. Virgin of Crossplains, Tenn., have not seen each other. The G. A. R. encampment brought committee on the Hospital festival, tonight them together. They were the only children of Mrs. B. B. Virgin, who held strong anti-slavery views. When the war broke out in 1861, one of her sons, J. W., joined the Confederate army. This hurt her so much that she grieved herself to death. All female diseases put forth their symptoms, such as nervousness, lassitude, paleness, dizziness, faintness, leucor-

rhœa, faltering steps, sleeplessness, bearing-down pains, backache, and consequent melancholy and the blues.

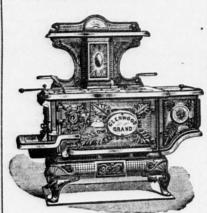

Lydia E. Pinkham's Vegetable Compound has for twenty years saved women from all this. Hear this woman speak: -"Five years ago at childbirth I did not have proper attention. I became very weak; could lift nothing without bleeding from the womb, which was ulcerated badly. Fall River Employes Get Their Answer From Manufacturers.

Profits Will Not Admit of an Increase In Wages.

Workers to Take Action at a Meeting to Re Held Next Week.

FALL RIVER, Mass., Sept. 13 .- The decision of the manufacturers, with reasons for their refusal to grant the 10 per cent advance asked for in wages, was received by the Weavers' Protective association last night. The meeting was not extra well attended

owing to the extreme heat. It was decided to hold a mass meeting in Music hall, Sept. 90, and take action. Strike was talked by some of the members.

The secretary, James Whitehead, said to the reporters after the meeting that the

present margin, which he figures at 74% cents, was thought sufficiently large by some of the members to be grounds for a "If the market improves " he said "or the margin remains the same as now it is possible that the union may demand

the advance, and, failing to get it, vote to strike. The following is the letter of the man ufacturers:

James Whitehead, Secretary Weavers' Asso DEAR SIR-At a meeting of the association, DEAR SIR—At a meeting of the association, held on the 11th inst., your request for an advance of wages was considered, and it was unanimously voted that it be not granted. You will find in the following facts and state-

ments some of the reasons for our adverse ac tion, namely:
While it is true that our corporations have done a profitable business during a few months past, it has been owing to fortunate purchases of cotton bought months before, at much less than the prevailing prices, and not the legitimate profit between the current prices of cotton and cloth. The cotton will ast only a short time longer, and offers no substantial basis for an advance in wages.

The average price for weaving for more than 11 years, ending last April, was 18.44 cents a cut, which is only 2½ per cent more than we are now paying, namely 18 cents a cut.

You now ask for 7½ per cent more than the average, and a higher price than we have paid you at any time during said years, except

bout nine months in 1898. The present margin between 45 yards of cloth and 8 pounds of cotton, the usual basis for calculating prices, is but 78.7 cents, and is no larger now, after allowing for the extra cost on account of the last advance in wages, than it was when cloth sold at 2½ cents a yard and cotton was 5½ cents a pound.

You ought to know that the condition sur-

rounding the manufacturers at present do not place them on the top wave of prosperity, that your request for almost maximum price paid in years is extravagant, and that our decision is correct and your demand quite unreason able. Respectfully yours,

C. C. ROUNSEVILLE, Secretary.

Per order committee of Cotton Marufac-As Viewed by Whitehead.

Secretary Whitehead, after the meeting made very few comments on the letter. He said that instead of 45 yards being the standard, the length was 46, and in some mills 47. He took 46 yards, while the manufacturers chose 45. That is why the margin differs from that of Mr. Rounse

Mr. Whitehead took cotton at 8% cents, and cloth at 31/8, and figured 743/4 cents of a margin, while the manufacturers figure 73.7 cents. With cotton closing at 8 3-16, Mr. Whitehead figured the margin to be about 78 cents.

He remarked that some members were in favor of striking a certain few mills; that others were in favor of striking all. He said that much importance was attached to the outcome of the demand of the weavers in New Bedford. If the operatives there won the Fall River manufacturers' position would be weakened. At any rate, the union intended to wait until the 20th.

Mr. Whitehead expected the market to rise, and anticipated the margin would be greater than it is today. He felt, however, that there might be a vote to strike, even within the margin as he had figured it, 74% cents. He said that the union had \$8000 more now than it had when the vacation strike of Aug. 18, 1894, was begun.

Fall River's Labor Trouble. FALL RIVER, Mass., Sept. 13. - The

Weavers' association held a meeting last night and the wage question was dis-cussed. A letter from Secretary Rounseville of the Manufacturers' association was read, in which it was stated that the manufacturers had voted not to grant an ncrease in wages, because they could not afford to do so. The weavers voted to meet tonight to render their decision There is a growing feeling in favor of a strike. The spinners are prepared to support the movement of any of the other operatives in event of a strike.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning Sept. 15. Comment by Rev. S. H. Doyle. TOPIC.—How we may help the Sunday school and get help from it.—Neh. viii, 1-12. (Meeting may be led by the Sunday school commit-

The modern Sunday school was neither originated nor suggested in the Bible. Yet religious instruction has always been a part of the work of the church. The importance of the Sunday school cannot be overestimated. To do what God wants us to do we must know what God wants us to do. The Bible alone tells us this, and it is this that is taught in the Sunday school. The Bible is also a wonderfully popular book today. For many different causes it is being studied

In the incident before us we have perhaps the nearest approach to the modern Sunday school that the Bib's contains. Every Christian Endeavorer should be interested and actively engaged in Sunday school work. We may help it and get help from it:

1. By attending the Sunday school. furniture of every This refers to all. When Ezra taught the to Guy's Coliseum. people in our reference all were present, men and women and all that could hear with understanding." Parents were there with their children. If some Christian parents went to Sunday school, they could solve the vexed question of how to get their children to go. They could take them. There is a prevalent idea that we become too old for the Sunday school, but this is a mistake. It is a place for studying God's word, and no one can be too old for that. We should attend regularly. In so doing we will help the superintendent, our teachers, and may influence some one else to attend and will be greatly benefiting ourselves.

2. By earnest attention in Sunday school. Ezra's people were all attentive. 'The ears of all the people were attentive unto the book of the law." Attention is absolutely necessary to proper instruction. No one can teach without it. No one can be taught without it. If teachers, we should insist on attention. If scholars, we should not fail to give it. In both cases we will benefit and be benefited.

3. By doing any work for the Sunday school that may be placed upon us. To attend and to pay attention is not all that is necessary. New members must be brought in, and old ones looked after. Teachers are often wanted. The superintendent selects you. Do not refuse You may feel unfitness. Let him be the judge of that. You can give more help

to the Sunday school by teaching in it

President of the Defunct Granite State Bank States His Case.

Why He Was Surrendered by His Bondsmen.

Thinks That the Bank Could Have Paid Dollar For Dollar If Undisturbed.

EXETER, N. H., Sept. 14.-Warren F. Putnam, president of the defunct National Granite State bank, who was surrendered by his bondsmen, was brought here yesterday and lodged in Exeter jail, awaiting a hearing before the United States court on an appeal from a sentence of five years in the state prison for alleged embezzlement. When asked about his being surrendered by his bondsmen, Mr. Putnam said: When Mr. Patten of Kingston went on my bond, I told him I would stand ready to give myself up any time he asked me

Skipped With Firm's Funds. ROCKLAND, Me., Sept. 14. - The announcement was made here yesterday that Stephen Chase, a prominent politician and citizen of Rockland, and a member of the firm of Charles E. Weeks & Co. wholesale fish dealers, who has been miss ing for a week, would not return, as he was unable to pay several thousand dollars which he owes. He collected several thousand dollars for the firm before his departure, but failed to hand it in. He owes a large amount to business men here, for which they hold his paper for security. The paper, however, is valueless. Chase home for the avowed purpose of transacting business in New York. The company heard nothing from him until a letter was received, stating that he had made collections for the company, for which he had never accounted, besides using several thousand dollars of the John Tuckerman estate, of which he was administrator. He claimed that he got in debt before he knew it and had to resort to this means of raising money.

Wreckage Drifts Ashore.

Boston, Sept. 14.-Some wreckage, consisting of spars and cabin fittings, has drifted ashore at Nauset with the name A Heaton on it. Captain Hallett of the steamer H. M. Whitney, which arrived here yesterday from New York, reports that when his vessel was about two miles southward of Nauset passed a sunken vessel with spars alongside, apparently attached by the rigging. The vessel lies directly in the track of navigation, and is doubtless the A. Heaton. The threemasted schooner A. Heaton, Captain Handy, left Somes Sound, Me., Sept. 2, bound with a cargo of paving stones for New York.

Foul Play Feared.

PORTSMOUTH, N. H., Sept. 14.-Searching parties have unsuccessfully scoured tery Point for the past three days in hopes of getting some trace of Mrs. Abbie Hillard of that town, who has been missing since last Sunday. When Mrs. Hillard disappeared she had on a common house dress, but wore her watch and jewelry, and the latter fact make some people think that she has been the victim of foul play. Her disappearance is very mystifying to the people of Kittery Point.

#### An Italian's Ready Knife.

BRADFORD, Mass., Sept 16.—George E. Eastman of Haverhill was returning from a fishing trip yesterday afternoon, accompanied by Herbert Williams and two young ladies. In some way they offended a number of Italians who are employed on the Bradford water works. Two Italians followed them and accused them of stealing a jug of eider. The men denied the charge. Alcanzo then drew a knife and plunged it three times into Eastman's NEW POTATOES, SWEET CORN, back, inflicting dangerous and perhaps fatal wounds. Alcanzo recently served a term of 15 months in prison for a similar assault in Haverhill. He has not been captured.

#### The Doyle Murder.

PORTLAND, Me., Sept. 16 .- Whether the Portland police are really on the track of Mabel Doyle's murderer, who is thought to be in this city, cannot be definitely decided yet. The suspected person came to this city from Boston the day following the discovery of the murder. On account of his mysterious actions, he was at once spotted and his place of concealment watched. When his description was found to correspond with that of the murderer of Miss Doyle, the police found that their bird had flown. Boston officers are here at work on the case.

MANY RIDICULOUS yarns are being spun by the Boston papers daily on the Large Fall Stock Doyle case. But the "important clews" don't seem to amount to much.

> LYNN PROPOSES to hold an indignation meeting on the proposed greater Boston post office scheme. Quincy might do likewise if there were indications of the consummation of the plan, yet it might be well to take no chances.

THE ASSESSED valuation of Weymouth s \$6,448,981, yet it has more acres than Quincy. On such a low valuation Weymouth escapes with a small State and county tax. Quincy's valuation is increased to over seventeen millions and our GROSSMAN, State and county tax are nearly three times that of Weymouth.

The summary: granite and work amounts to about \$2,000. It is possible that the city is not legally bound to pay the claim, but there certainly is some doubt about this, particularly since the city has been reimbursed by the bondsmen of the insolvent firm. Many believe the city is morally if not legally bound to pay Mr. Wilson his bill. ## Parlor Stoves.

It isn't because people don't know or don't care, it's because they don't think and are neglectful that colds are caught, and sickness of a more serious nature is contracted. A pinch of prevention is worth a barrel of cure.

It doesn't pay to sit in cold, damp rooms during the cool fall evenings and become chilled through. Take no chances, buy a parlor stove now, get the good of it and protect your health. Our parlor stoves are attractive, serviceable, economical to run and will keep you warm; that's something to think about, and they're mighty low in price, that's something to dream about. \$2.90 to \$25.00

NEW YORK, Sept. 16.—Chauncey M. Depew, in fine fettle generally, stepped over the side of the American liner Paris at Quarantine just after midnight of Saturday, shook hands with a who were waiting to welcome him, and said, in answer to the usual question: "Great! Square. "As I was crossing the plaza after this scene, from one of the dispensing wagons I heard my name called. It was occupied by a lady, and was drawn by her son, a student at the College of Physicians and Surgeons in New York. She said that the doctors at home had said that science and skill could do nothing for her and she must make herself as comfortable as possible until the end, which was only a few months off. So she had come to Lourdes with faith and hope. I asked the grounds of her hopes, and she said: 'Why, a miracle was performed this afternoon before our eyes. Did you not see it? That was the cause of the great excitement.'

"This was her story. A young girl who stayed at the same hotel as she did had been unable to walk or put her foot to the ground for six years. She had suffered rightful pain, and screamed with agony when dipped in the icy water. She had been bathed six successive days, and after the procession passed that afternoon, had Called Out That She Was Cured. "I said to the medical student: 'What

do you know about this?' He said that he had seen the knee bandaged at 12 o'clock that day. It was swollen badly and he counted 28 running sores from which the matter was exuding in a sickening way. I told him I must see that girl. Prohibitory Laws Work Well When Energy Is Displayed.

Ex-Mayor Brock Opposed to Liquor Licenses.

A Vigorous Address Before the Massachusetts Prohibitory Party.

Boston, Sept. 18 .- The Prohibition state convention opened in Association hall, Y. M. C. A. building, today for the purpose of placing a state ticket in nomina-

The meeting was called to order by the chairman of the state committee. Sing-ing and prayer was followed by the election of Rev. Mabel MacCoy of Mansfield as temporary chairman. The election of convention committees,

the report of the treasurer, the report of the committee on permanent organization and election of permanent officers of the onvention followed. Ex-Mayor Jethro C. Brock of New Bedord was elected permanent chairman, and

he delivered the following address: Chairman Brooks' Remarks. "I thank you most heartily for the honor you have conferred upon me in calling me to preside over your deliberations. It is an honor at any time to preside over a state convention of the Prohibitory party, but this year it is doubly so, celebrating, as we do, the 25th anniversary of

the organization of the party.

"While in charge of the police department of New Bedford I had the opportunity to test the practicability of the enforcing of a prohibitory policy, and I satisfied myself, the liquor dealers and the public generally that it was entirely prac-tical. Again, during my term as mayor, for the short time during which no license connection I give, as the result of my obpolice department or to the juries.

"If those in authority really desire the saloon closed the police can and will secure evidence, and juries will convict. and band concerts entertained the general While experience has demonstrated to me these facts relative to prohibition, it has clearly convinced me of the complete fail-We have a large Stock for Boys and Girls' wear ure of license as an aid to the cause of enthusiastic expected, and will do a great temperance and sobriety. would perhaps take an Entirely Different View of It. "In fact, I believe if the receipts from icenses went to the state treasury, instead of that of the city or town, many places that now annually vote license, would instantly swing into the no-license column. It is the prevailing and absurd idea that An advance of 12 dollars on prepaid tickets, on which leads many men to muzzle their movements of the town. one of the leading S. is beyond my comprehension. "We are apt to speak very harshly of the liquor dealers, but I cannot lose sight of the fact that they are but the legalized representatives of the good citizens who vote for license and thereby give an air of respectability to the business. In my opinion, the legalized dealer ought not to bear all the odium of the traffic. We often hear it said that the Prohibitionists vote in the air, but no vote for the right, for a pended on, which largely increases the the basis for a thorough investigation of principle, is ever thrown away, and no estimate of the healthy influence of the party can ever be made by the number of votes polled or even by the number of voters in attendance at a caucus held under the ingenious Republican caucus law.

"Friends, we are advocating a good and just cause, and that ought to be sufficient to inspire us to renewed activity. The women, who should be with us in voting are with us in the sentiment; the young Christian element, under the burning words of Wooley, is looking this way, and we should take courage and press forward."

Miscellaneous business was transacted after the chairman's address, and the convention, at 12:30, adjourned till 2 p. m.

Reports of the War's Progress Tend to Favor

Boston, Sept. 18.—The Spaniards have evacuated Banes, the most important fruit port on the northern coast of Cuba; in fact, it is the port from which nearly all the bananas which come to Boston are shipped. The Spanish soldiers made a feeble attempt to defend the place, but the patriots were too many for them.

The British steamer Taff, which arrived at this port yesterday with a cargo of bananas, brings the first account of the evacuation of Banes, and also brings re ports of a most serious state of affairs in that part of the island.

The Taff reports that the entire north ern section of the island is now in the tion, although the Spaniards have between 7000 and 8000 soldiers at this point and

two men-of-war in the harbor. When it became known that the rebels threatened Banes, M. Dumois, who prac tically owns the town and who is one of the wealthiest planters on the island, sent to the Spanish officials at Gibara, about 40 miles distant, an urgent request for troops and the Taff was placed at the disposal o outskirts to the number of about 5000 There were only about 70 Spanish soldier in the fort at Banes, but they made show of resistance until overwhelmed the common to witness the handicap foot races. Taken Back to Gibara. The officers of the Taff say the Spanish soldiers, which they took to Banes, were all mere boys, and yet they claimed to have been in 18 engagements in the vicin ity of Gibara. The officers further state that the soldiers were very poorly equipped. Some of them wore caps, others old straw hats, and still others had nothing to wear on their heads.

As soon as the rebels found themselves n the possession of Banes they at once cut all telegraph and telephone wires and at once began to harrass Gibara, and the commander of the fort was expecting an

open attack at any moment. The officers of the Taff say that the whole country is up in arms and that everybody favors the rebels. So true is this that only boys were left in the port of Banes to load and unload the vessels. The bulk of the male population has

A Coming Industry. The production of aluminum is rapidly increasing, and promises to be extensively used, and our new industry on Granite the force. Nearly all of the discharged street may become one of the leading industries of the city. The United States are without exception A. P. A. men. Geological survey in its review of the mineral resources of the country finds that 550,000 pounds were manufactured in 1894 against 83 pounds in 1885. The industry has become of considerable and growing importance, and the manufacture has grown from nothing until the value of the output amounts to over \$200,000 per annum, while the price has fallen to one tenth what it was in 1888.

#### To Visit Quincy.

A day's outing has been planned for the New England Roadmasters' Association now in session in Boston. On Friday special train will leave the Kneeland street station of the Consolidated road at 8 o'clock in the morning for the Granite branch, where may be seen the sharpest curves, heaviest grades and highest altitude of any railroad near Boston; thence improvements are in progress, to old Plymouth. The return trip will be by way of the south shore to Nantasket Junction where a trip over the Nantasket Beach electric road will be enjoyed and a stop made at the great power house.

### SHOULD WE ASK FOR THE SUFFRAGE?

It is not necessary that every woman should make up her mind today with rean suffrage. But there is a danger that, many women will remain in a state of vague interest and uncertainty, distressed perhaps by the thought that they should have asked for their "rights," and perchance made discontented by the idea that, had we all done so, woman's lot would

whole would have been benefited. "I have taken the suffrage side," one of my friends recently told me, "not because I am convinced that woman suffrage is desirable, but because I think that it is bound to come some day, and therefore it is best not to fight against it." But no events dependent upon human action are bound to come, like earthquakes or com ets, or the changes of the seasons. We may say that some such events are bound to come, if existing conditions do not change. But who can predict positively that any human conditions will not change? And we may say that some things are all but certain to come-like greater freedom in Russia, for example. But even then, if we disapprove of them, it is better to fight against them. If we do not stave them off, we shall profit the world by helping the growth of courage, constancy, public

spirit and the reasoning power. Far from believing that woman suffrage is bound to come because of the present increase of interest in it, many of us hope that just this increase will give it its death blow. Opposition to it has hitherto been passive, and to a great degree merely in stinctive. No one has strongly felt the need to give her reasons against it. Therefore no one still uncertain upon the subject has had the chance to hear both sides and intelligently make up her mind, and few have even been prompted to think about it at all. But if the negative side is now faithfully presented, the current excitement, we feel, is likely in the end to

do more to hurt than to help the "cause." Therefore it is well to ask ourselves econd question: Upon what grounds do its advocates base their demand for wom-

be switter, details of legislation and placetic might be more rapidly improved, if women could vote, may be left aside for the moment. What I want to show now is that our constitutions, our systems of law, our political beliefs, do not include the power to vote among the indisputable rights even of masculine humanity. If they did, boys would be born with the right of suffrage. They would not have to wait until they were 21 to get it. They would vote by deputy until they had reached years of discretion, just as now, if they are born to an inheritance, they own their property from birth and control it by

deputy until they come of age. Expediency, not right, is the basis of the suffrage. It is inexpedient, our legislators think, that all men should vote be

Endorsed by Republicans. of your Malt Prepa Determination to Nominate deserved reputation, I herewith appoint you as purveyor the Court of Roumania." Morton For President.

Signed by PHILIPESCO. Court Marshall State Ticket of '94 Again Nominated at the Beware of imitations. The genuine Johann Saratoga Convention. Johann Hoff

SARATOGA, Sept. 18 .- Clear skies and a bracing atmosphere gladdened the hearts of Republican statesmen yesterday. "Re. form" is the slogan of the campaign. All other issues were let alone as much as possible, and the battle was made on much the same lines as last year, when the party surprised itself and the nation.

Mr. Platt dominated the situation so completely that there was no fun for the kickers and those who enjoy political rows. The men who were working for Fassett, Coggeshall, Milholland, Bliss, Collins and others last year were shouting for the old ticket and harmony this year. Rehind all the state work behind the platform the speeches of temporary and TTLANTIC, - - MASS permanent chairmen there was a quiet purpose to shape all things for the nomination of Mr. Morton for President in

LEVI P. MORTON. That it was close following of the work AVING Been appointed City Scavanger,
I respectfully solicit the patronage of
the citizens, pledging myself to give particular attention to all business entrusted to me,
and to do all by the Odorless Fxcavating
System. Orders may be left at:

This is was close tolowing of the work
mapped out is evident from the fact that
the security of the state ticket was made
possible by the vote of one man. When
the morning sun broke over Saratoga it
saw such iron-bound plans for the approaching convention that on all sides it mapped out is evident from the fact that proaching convention that on all sides it was conceded that there would be no fric-tion and that the plans of the state committee would be carried out.

After the opening session there appeared on the horizon a cloud of discontent that grew so rapidly that at 3 o'clock the fate of the state officers seemed to be sealed against renomination. The trouble arose over the contest for seats in the First district and hinged on the seating of the contesting delegation headed by Conessman Mahaney.

With everything apparently running smoothly, the leaders were suddenly confronted with the statement that if the Mahanev delegation were seated the Erie county delegation would leave the convention, and Mr. Robert's name would be withdrawn from the convention, thus breaking the slate. When the convention met the committee reported against Mr. Mahaney. It was learned that the vote was 16 against and 15 for, the deciding vote having been cast by Mr. Wheeler of Utica. Thus was the catastrophe averted. The next nearest approach to a break in the plans came when Warner Miller introduced his resolution for the protection of the American Sabbath and the carrying out of the excise laws. The leaders who had proclaimed against any excise action accepted the situation, and the result was that all friction ceased. Action on enlargement of the state committee was

tabled, and local Sunday option for counties was also killed. There is general rejoicing on the result of the convention. The opinion of the majority of the delegates is that the adoption of the Sunday enforcement plank is a clever move that will aid the party. It is generally conceded that the Democrats next week will pass a resolution favoring local option, and this will make clearly the line of division between the two parties.

The Platform. The platform, in brief, demands enforcement of the Sunday liquor law and the preservation of the Sabbath, and denounces the Democratic administration for failing to defend the rights of American citizens, resident or traveling, in foreign countries, and for permitting foreign countries to encroach on the Western Hemisphere. The tariff and the handling of the deficiency question by the last Democratic congress received condemnation. A sound and stable currency, giving the people a dollar worth a dollar, was favora-

bly endorsed. The return of prosperity was hailed as resulting from the election of a Republican congress, giving confidence to the peo ple in the assurance that no further tariff tinkering will be possible. The ignorance and unwise policy of the Democrats in passing the unconstitutional income tax was referred to, as well as the favorable record of the Republicans in congress in their opposition to that law. Governor Morton's wise and patriotic administration received endorsement, and

The dangers to the people of a return of the Democratic party to power in this state were portrayed, showing that the same men who have been repudiated by the voters are still in charge of the affairs of the Democratic party in this state, and that their return to power would mean but a repetition of the old outrages. The Raines ballot reform law was pointed to as the best enactment for ballot reform yet passed in this state. The

platform also set forth that the demands of the people in the city of New York have been granted in reform legislation. The Ticket. The state convention closed last night

A BOSTON GIRL'S LIFE Saved from Ruin and Despair by the

Timely Aid of a Noted Woman. [SPECIAL TO OUR LADY BEADERS.] S there anything more truly pathetic than the cry for help that springs guished heart of a young girl girl who sees ahead only suffering and un cerainty? But oh, what joy and gladness her young heart pours realizes that her dreaded enemy,

the blasting influ ence, is gone, - banished forever. This sunshine and joy is now the happy portion of Miss Florence of Beacon Street, Boston. She often tells of her suffering from the suppression of the menses. The pain was excruciating. The doctors, instead of removing the cause of her ailment, plied her each month with morphine to prevent convulsions; but the trouble was permitted to exist. When she could endure no more, -

rostration was imminent and future peless, -her family procured a bottle of Lydia E. Pinkham's Vegetable Compound, which, surprising to all, rapidly and permanently cured her.

In writing to Mrs. Pinkham, pouring forth her gratitud and happiness, she says: "Oh! that I uld make every suffering woman try your valuable medi-cine! How they uld bless you!"

A LONG STRUGGLE With Honors Equally Divided Between Boston and Baltimore.

Boston, Sept. 17 .- For four long hours the ex-champions and the champions battled for supremacy, and finally, when it was too dark to continue the contest, it was found to be a draw, with one game to the credit of each club. Yet Manager Hanlon was content to have it that way, for besides the game he won, nine others before it have gone his way, while Select has but the one game to show for his season's gunning for Orioles.

#### HUNGRY ITALIANS

Making Things Decidedly Unpleasant in the Town of Darien, Conn.

NORWALK, Conn., Sept. 19.—Darien is in a state of siege because Joseph B. Ryder of Norwalk, president of the Darien waterworks, has neglected to pay Italian labor- Paris. ers employed by him as contractor in building the works.

Ryder has about 100 men employed, and

until this month paid them off every four weeks. This time he failed to appear on pay day, but sent word that he would settle by Sept. 10, then extended the time to He has not appeared yet, and the Ital-

ians marched into Darien. They were hungry, they said, and if they were not fed they threatened to loot every store in the village.

Theophile Euphrate, an ex-president of the company, who passed at the time, was assaulted by Italians, but escaped before receiving bodily injury. A score of Ital-

ians followed, and he gave them \$5 with which to buy food. Colonel Hayden, a sub-contractor, was spied on the street by about 40 Italians who had gathered, and they made a rush for his wagon, but he managed to escape the blows from their clubs. Twenty-five Italians kept guard over Mr. Ryder's resi-

dence at Norwalk all day.

The explanation of the visit of the Italians is found in the statement that he was in town Saturday afternoon. Jimmy, the padrone, got wind of this and brought a gang of men to Norwalk to demand their wages, but Ryder had quietly slipped out of town.

Seven carloads of pipe, three at Noroton and four at Stamford, are standing on the sidings waiting for the water company's men to return to work.

#### Ratsey's Little "Joke,"

NEW YORK, Sept. 19.-On the steamship Majestic, which sailed from Liverpool yesterday afternoon, was Sailmaker Thomas Ratsey. Mr. Ratsey said he had a good time; liked the people on this side very much, but that Americans had no sense of humor. "What do you think of the American cross-cut salls?" he was asked. Governor of Illinois Seizes the Opportunity to Talk on Politics

CHATTANOOGA, Sept. 19 .- The quarter centennial reunion of the Army of the Cumberland meeting in conjunction with the dedication of the Chickamauga and Chattanooga National park was held last night in the monster tent erected to acmmodate the several gatherings of the When the meeting had been called to

order, General Morgan introduced Mayor Ochs, who made the address of welcome Response was made by General H. V. Boynton, secretary of the association. Lieutenant General John M. Schofield said: "Comrades-Every year the services you rendered to our common country in the time of her sorest need appear greater and greater, and your heroic deeds shine with increasing lustre. But since that period you have won a greater vic-

tory than that which crowned your arms

General James D. Morgan welcomed the Confederates present, saying, in part: "If in the future this good government again requires the services of her sons, the blue and the gray will be found standing shoulder to shoulder in protecting her rights."

The annual address was then delivered by ex-Senator General Charles F. Man-derson of Nebraska. "My comrades and my countrymen have no fear for the republic. It is based upon man's love of liberty, its structure is embedded in equal rights to all, and is cemented by the blood of our slain." Secretary of the Navy Herbert, General Daniel Butterfield and General Horace

Porter each in turn also made speeches, and the meeting then adjourned. On Chickamauga's Battlefield. The first event vesterday was the dedication of the Michigan state monuments at Snodgrass hill, a point at which there was

more hard fighting during the battle than on any part of the field. In the northeast corner of the Kelley field the monuments of Wisconsin were turned over to the government at 11 o'clock. The exercises were presided over by Colonel W. W. Watkins.

The Ohio veterans took possession of Snodgrass hill as soon as those from Michigan had finished. General John Beatty, president of the Ohio commission,

Short addresses were then made by ex-Governor Campbell, who was governor at the time the committee was created; Hon. J. S. Gill and Hon. J. S. McElroy. General Aquilla Wiley then made a short address formally turning the monuments over to Governor McKinley, who in turn transferred them to the national government. Illinois monuments were dedicated on the site where Widow Glenn's house stood during the battle. It is a few hundred yards southeast of the famous "Bloody

Massachusetts monuments were dedicated at Knob Hill at 3 o'clock. The ceremonies were short, simple and impressive. Governor Greenhalge called the assembly to order and made the address of the occasion. He briefly reviewed the part that Massachusetts took in the awful battle and then of the part she took in the rebellion. In conclusion, he spoke of the dedication of the field as a national park in honor of the heroes who fell there. At the conclusion of his speech, the governor and staff, together with the state commis-EVANGELINE'S LAND sion, went to the National cemetery and decorated the graves of the Massachusetts soldiers buried there.

Altgeld Talked Politics. Governor Altgeld of Illinois created a sensation at the monumont dedication, the conclusion of his speech being as follows: "Instead of an armed foe that we can meet on the field there is today an enemy that is invisible, but everywhere at work destroying our institutions; that enemy is corruption. It seeks to control the press, it seeks to direct official action. it dictates legislation and endeavors to control the construction of laws.

It seeks to set the fashions and to shape public sentiment. It has emasculated American politics and placed it on the low plane of jugglery. The tendency now is for political parties to shirk principle and follow expediency. "To be an eligible candidate now often

Never before did this republic call so loudly as it does to-day for a strong, sturdy manhood that will stand defiantly and dare to do right. "The flag has been praised at cham-

pagne dinners, while the very pole from which it floated was being eaten off by corruption, and republican institutions were being stabbed to the vitals. "The men of the past did their duty. Shall we do ours? They were asked to face death-you may face calumny. No man ever served his country without be-

ing villified, for all who make a profit out of injustice will be our enemies, but as sure as the heavens are high, and justice is eternal, will you triumph in the end." Roosevelt Honored. BAD BEHAVIOR At the Last Game of the Season Between Boston and Ba'timore.

Boston, Sept. 18.—The home team shut out the Baltimores in a seven-inning contest. It was the last game of the series this season between the champions and the ex-champions, and was attended by some of the most disgraceful scenes witnessed on the home grounds this year. For the first time this year the services of Superintendent Haggerty were called into play, who acted in the capacity of an officer and ushered Brodie from the grounds.

"My physician told me I had dropsy and falling of the womb. My stomach and bowels were so bloated I could not get a full breath. My face and hands were bloated badly. I had that dreadful bearing-down pain, backache, palpitation

of the heart, and nervousness. "One of my physicians told me I had something growing in my stomach; and the medicine that I took gave me relief only for a short time. I thought I must die. I began to take Lydia E. Pinkham's Vegetable Compound, and it worked like a charm. After taking the first bottle I could walk across the street, now I am well. I advise all my friends to take it." -MARY E. CAMPBELL, Albion, Noble Co.

WAR CLOUDS. France and Brazil Are Participants In a Seri-

ous Quarrel. PARA, Sept. 20 .- A French force has landed north of Amapa and has blockaded Counani, close to where the fighting occurred last May. Governor Cabral, who was prominent in the former fighting, is preparing to resist the French.

The trouble in May in the frontier district between Brazil and French Guiana has given rise to a good deal of bitter controversy between the two governments. The Brazilian governor, Cabral, arrested a Frenchman named Tralane in the recountries. The French governor of Guiana, Charvein, organized an expedition to punish Cabral and rescue Tralane. The expedition, led by Captain Lunier, was unsuccessful, its leader and four marines being killed. The French governor, Charvein, was recalled to France for having organized the expedition without the authority of the colonial office, and his successor, M. De Lamothe, formerly governor of Senegal, was sent out with instructions to pacify the region by peaceful measures.

An Assurance of Peace.

LONDON, Sept. 20. - The Times' Paris army maneuvers yesterday, says: If during the last 25 years the Vosges have not seen such a spectacle as has just been con-cluded, it is because under the reign of Prince Bismarck the distrustful and suspicious policy of Germany would not have acquiesced in such an event. There was no protest yesterday, and the two nations are on a footing of absolute equality. This equality, recovered by France and recognized by Germany, is not one of the least reassuring symptoms for the lovers of peace throughout the world.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning Sept. 22. Comment by Rev. S. H. Doyle.

Topic.-Our Christian Endeavor pledge-its joys, its requirements.-Eccl. v, 1-7. No element of the Christian Endeavor movement has been so frequently and so bitterly assailed as the Endeavor pledge, but experience has proved its inestimable value, and that it was really the keystone of the Christian Endeavor arch. It is no longer criticised. It needs no longer to be defended. It has been its own defense and has proved that it is neither impracticable, unreasonable nor un-Scriptural. Though it no longer needs to be defended, it does need to be emphasized. Human nature is weak, and Endeavorers are only human. Too much cannot be expected of them, and it is no sign of unusual weakness if it is necessary constantly to remind ourselves that we should keep the pledge; that when we vow a vow unto God we

should defer not to pay it.

1. The joys of the Christian Endeavor pledge. It has its joys as well as its requirements. It has the joy of possession. It speaks to us of God's ownership; that He possesses us; that we have pledged, dedicated ourselves to Him in Christ. There is joy in being owned by those we love. This should particularly be the case in the ownership of God in Christ. It has the joy of definite knowledge. There is great joy in knowing what we should do. Nothing makes us more miserable than to be in serious doubt as to what we should do. The pledge is definite. There are certain things we pledge ourselves to do, and there is joy in knowing it. It has the joy of a good conscience. This is of course the fulfilled pledge. There is joy to be found in the fulfilling of the pledge, and also in it after it has been fulfilled.

2. The requirements of the Christian Endeavor pledge. The one great requirement is that it should be fulfilled. It is gion which is in dispute between the two a vow to God. It is a voluntary vow to God. It is a definite vow to God. There can be no excuse for not fulfilling it. No one is compelled to take it, but when we do take it there is the most sacred obligation upon us to fulfill it. "When thou vowest a vow unto God, defer not to pay it, for He hath no pleasure in fools. Pay that which thou hast vowed." We should pay it, and pay it promptly and gladly. There should be no begrudging the fact that we have taken the vow upon us. We should pay it all. There should be no correspondent, discussing the French neglect in that which may require the greater sacrifice. Faithfulness that is governed and controlled by personal whims and fancies is not worthy the name of faithfulness. Keep the pledge,

and it will keep you. Bible Readings.—Gen. xxviii, 20-22; Num. xxx, 2-4; Deut. xxiii, 21-23; I Sam. i, 9-11, 24-28; Ps. l, 14; lxvi, 13 14; lxxvi, 11; cxvi, 16-19; exxxii, 1-7; Prov. iv, 25-27; xxi, 15; Neh. viii, 10: Mal. i, 14; Math. xxiv, 9-13; Luke ix, 62; Heb. xii, 1, 2; Rev. ii, 10.

Secretary Baer, in his report on missions, says: After careful gathering of fight and put under bonds to keep the other statistics and information, and peace, and if they persist and enter the from advice received from the representatives of missionary boards, home plainly indicates that the power of the state is going to prevent the fight, under the common result states and Canada have the common penal statutes, no matter contributed not less than \$425,000 for missions at home and abroad.

The largest amount reported to me by any one board is from the Presbyte. rian foreign missionary board. The received, and that in the last five years sionary board received \$21,330.90 last year, we can praise God for the missionary uprising among the young.

Here is something that every social ommittee should carefully consider "The true Christian Endeavor social is is general gratification over the success of as purely evangelistic in its character as the prayer meeting. A social planned with this thought in mind would be its own safeguard against any improprieties."-Endeavor News.

Faithful Workers.

Those were shrewd as well as faithful Endeavorers of Portland who, at the close of a lecture given by Robert Ingersoll to an immense crowd, stood at the door, 18 of them, and gave to each person coming out a copy of Mr. Hastings' famous tract, "Will the Old Book Stand?"-Exchange.

Must Go as God Leads.

He who wants to be led to God will be sure to find God ready to lead him, but he who is led of God must go as God leads. He must not choose his own way and then expect God to go with him. - Sunday School Times.

### AN OLD-TIME CROOK.

Andrew Freeman Has an Unsavory Record In Police Circles.

Boston Police Now Have Him In Safe Keeping.

Large Quantity of Plunder Found Upon Him and a Female Companion.

BOSTON, Sept. 21.-Two Boston inspec tors arrested one of the oldest and boldest criminals in the New England states yesterday afternoon. He gave his name as James Freeman, but he was recognized by Chief Inspector Watts as Andrew Freeman, an ex-convict and burglar, who was convicted at Lowell, Lawrence and other places several years ago. The police believe he is the man who has been blowing open safes in Maine towns during the past few months.

Inspectors Wise and Robinson noticed a man and woman on Tremont street yesterday afternoon attempting to sell postage stamps. The inspectors suspected that the stamps were stolen, and followed the couple. They went to the Union station, and just as they were about to board a Now, \$ .38 train the inspectors arrested them. At police headquarters they were searched, and over 1000 postage stamps, a silk dress, three gold watches, a large quantity of broken-up watch cases, chains and an immense quantity of jewelry were found upon them. The woman gave her name

1.00 s Mary Williams. Chief Inspector Watts had little difficulty in recognizing the man as Freeman, who has spent nearly half of his life behind prison bars. He was convicted in Lawrence of breaking and entering the depot Oct. 30, 1865, and sentenced to three years in the state prison. He attempted to aid a state prisoner to escape after his release in 1868, and was sentenced for five years. He was convicted of breaking and entering dwelling houses in Lowell in 1874 and sentenced to 10 years at Charlestown. Since his release he is believed to have been operating in New England

Time Worked Changes. Freeman is about 45 years of age, at & has changed considerably since he was last seen in Boston. He at first denied his identity, but telltale marks on his arms and his picture in bracket No. 522 of the rogues' gallery settled him, and he admitted that the officers had correctly placed

The prisoners were booked as James Williams, 49 years old, and Mary Williams, 27 years of age. Freeman claimed he belonged in Lewiston, Me., but the woman told a different story, and said that they hailed from New York.

While the conversation had been going on Chief Inspector Watts had been eyeing Freem pretty hard, trying to place him, as just then that Inspector Howard saw him. Almost instantly the chief and the inspector identified the man, and it was then that the rogues' gallery

and the record books were referred to. The telltale marks in India ink were found upon his arms, and made identification positive, and it was then that he admitted that he was an ex-convict. It was then that he stated that he knew if he did wrong in this state he would be liable to a 25-year sentence, and he swore that it was decided to hold a public meeting for was withdrawn from the statue. Gara anything that was found in his possession

had been stolen elsewhere. The woman told the police that she had always believed that her husband was in the tea and coffee business, but the police discredit this statement, and say that, in their opinion, the woman is also a clever 'crook" who has been working in con-

ection with Freeman. Freeman is well known by Deputy Superletendent (formerly chief inspector, Hanscom, and the latter called on him last evening. Deputy Hansoom says that Freeman remembered him, but that the ex-convict has changed so much himself \$118. that he did not recognize him at first.

Having opened a Real Estate office in Durgin & Merrill's Block, we are a scale. prepared to show plans and give prices on some of the finest house lots offered for sale in this city in recent years. These lots are embraced in the following tracts of land:

#### PRESIDENTS' HILL.

This land was formerly the country residence of C. F. Adams. It overlooks rated this week when a large number who have succeeded in filling them out say or in opposite direction, making a belt line the ocean, and the view both seaward and inland is unsurpassed in this vicinity. The grounds are covered with rare and costly shade trees, a very desirable feature of a lot, and the farthest portion of the property is within four minutes' walk of both electric and steam cars. Persons wishing a fine lot in a first-class locality would do well to inspect this property before purchasing.

#### CRANCH HILL.

Probably better known as Adams' Field. This property embraces the resent links of the Quincy Golf Club, and is situated in the heart of the city. The land is high and dry, and the streets through the property are wide and straight. The lots are good size, the prices moderate and terms very reasonable. #### THE CITY.

The lifacs in my garden blow. Wide meadows ring my garden round. The city might be miles away, And yet you feel the city ne Through all the quiet of the day.

Wet leaves gleam in the moonlight pale, And in the wood behind the lane I hear the hidden nightingale. Though field and wood about me lie, Soft hushed in dewy deep delight, fet I can hear the city sigh Through all the silence of the night.

For me the skylark nests and sings; For me the vine her garland weaves; The swallow folds her glossy wings To build beneath my cottage eaves. But I can feel the giant near, Can hear all day his sad slaves weep. And when at last the night is here

I hear him moving in his sleep. Oh, for a little space of ground, Though never a flower should make it gay, Where miles of meadow lapped me round And leagues and leagues of silence lay! Oh, for a wind lashed, treeless down, A black night and a lonely way, A silence deep enough to drown

The voice that mocks me night and day!

Some keep it always open, some keep it latched, some locked, some bolted with a chain that will let you peep in, but not get in, and some nail it up, so that nothing can pass its threshold. This front door leads into a passage which opens into an anteroom, and this into the interior apartments. The side door opens at once into the secret chamber. Grand Parade the Feature of the Last Day of Dedication Ceremonies.

CHATTANOOGA, Sept. 21 .- One of the leading features of yesterday's events, one that caused, perhaps, more comment, more enthusiastic cheering, and which will make a lasting impression upon those who saw it, was a company of Confederate veterans, attired in their tattered old uniforms of gray, carrying the Stars and Stripes. They formed a part of the carriers.

big parade, and as they passed through
ATLANTIC – Brancheid's News Agency miles and miles of streets they were tendered an ovation.

The procession formed on Market street. the principal business thoroughfare of the city, and was characteristic of the occasion. First came a platoon of police and then the United States troops, foot and artil-lery, in camp at Chickamauga park, under command of Colonel Poland. These numbered, all told, about 1200 men. There were battalions from the Sixth,

Fourteenth and Twenty-third infantry and battery F. Fourth artillery; the Ohio National Guards, including companies from Cleveland and Columbus, the latter on bicycles; Capital City Guards of Georgia. This troop marched to the dedication from Atlanta, arriving here Tuesday.

The procession marched through the principal streets to Grant university, in front of which the reviewing stand was erected. The streets were decorated in marched under and by them they were ac companied by the almost constant cheers assembled thousands. General J. S. Fullerton, president of the park commission, was grand marshal.

The procession disbanded shortly after passing the reviewing stand, and the battery proceeded to Orchard Knob, on the summit of which was fired the Union salute of 44 guns at noon. At that hour began the exercises in the tent intended to commemorate, in connection with the dedication, the battle of Chattanooga

Vice President Stevenson presided. The proceedings were opened with prayer by Rev. Samuel J. Nicolls, D.D., of St. Louis. Hon. George Ochs, Chattanooga's eloquent executive, was introduced and made an address of welcome to the visitors.

Speaking For the South.

General William B. Bate's address presented the southern view of the causes leading to the war. He said: "Whatever may be the right or wrong, the south believed she was right, and the principles in defense of which the south accepted battle after peaceably seceding from the Union were found in the constitution and taught

by our fathers. "I have not the least apprehension that udgment, made up from that standpoint. there was no alternative left in 1861 but the appeal to arms; and I affirm, with equal confidence, that any comparison of the two sections from the earliest times to the present day will not find the south afternoon between two trains. Grosvenor of Ohio spoke in part as follows: "Here upon this legislative field, where political questions were to be settled, this conflict took place, and more than 30,000 men fell, killed or wounded in this bloody conflict. It was an offering upon the altar of a country's salvation, of a country's purification, of a country's rehabilitation, of a country's

GOVERNOR TURNEY.

Governor Woodbury said that during the war each side believed it was right, but now the southerners would have to teach their children the south was wrong. Gov. Turney took exception to this. "I believed I was right during the four years and 19 days I served in the Confederate army," he said, "and at the end of that time 1 thought I was right. I still think I was in laying torpedoes. The rose one leaves in some forgotten book. right and shall teach my children so. No one is more loyal to the Stars and Stripes than I, and no one is more loyal to the government, but I can never be convinced that the south was wrong."

This rather frank expression caused a meeting adjourned was the topic of general conversation on all sides.

Colonel W. C. Oates, governor of Ala-

bama, was the next speaker, and he was greeted with enthusiastic cheers. In his introductory remarks Governor Oates referred to the significance the dedication of the battlefield of Chickamauga portended. The Union veteran, by his ceremony, ex-tolled his own gallantry, by which alone he was able to triumph over such determined foes as were those of the Confederate army. It was complimentary to the Confederate veteran in this manly way to acknowledge defeat, accomplished overpowering numbers, and to shake hands with his adversaries as honorable men. He next recited the action of his men at Chattanooga, telling of the heroic fight they made. Then he spoke of the causes of the war. Colonel J. A. Williamson of New York

and Colonel S. R. Stegman also spoke, after which the meeting adjourned. At noon the citizens of Chattanooga paid their compliments to General H. V. Boynton, who originated the idea of making a national park out of the battlefield of Chickamauga. A number of citizens went to the general's office in the government building and presented him with a silver dinner set, containing 225 pieces. It was a complete surprise to the venerable gentlemen, and he was so overcome that

he could scarcely express his thanks. A reception was tendered Vice Presiden Stevenson and General Schofield and the visiting governors at the Reed House last

#### WEEKLY TRADE REVIEW. Toward Higher Prices In Many

Branches of Business. NEW YORK, Sept. 21 .- R. G. Good reports of foreign crops, weakness of flour in Minnesota and large exports of corn from this country, all work against a rise in wheat, though scarcity of contract grades may help a speculative advance Pork products have been reasonably yielding, with prospects of a large corn crop, but before the close had a stronger one. The cotton market, lifting and falling a fraction each day alternately, shows no settled tendency, big stocks balancing an undoubted, but as yet not definite, de crease in vield.

The surprising increase in production and advance in prices of iron seem to be bringing a natural check, as prices have gone so high as to cause some purchases from Europe, both of pig and finished products, and have also caused a distinct shrinkage in home demand.

Leather has further advanced in some qualities, though the rise of 51 per cent for the first half of the year on 16 qualities has been followed by only 2 per cent rise since July 1, and this week a break has oc curred of 2 cents in Union crop. Hides are 8 per cent lower than in July, after their advance of 80 per cent in the first half of the year, and the rise in boots and shoes cause some decrease in new orders, so that some shops have stopped work or reduced force. ### WRECK OF THE EDAM

An Ocean Disaster Without the Loss of a Single Human Life.

Spanish Cruiser Wrecked Off the Coast of Cuba.

More Than Two Score Men Went Down With the III-Fated Craft.

LONDON, Sept. 20.-The passengers of the steamer Edam are safe. The Edam was from New York, Sept. 6, for Rotterdam, and foundered off Start Point, on the southern coast of England, at 10 o'clock yesterday morning, after a collision with the steamer Turkestan, which has reached Cardiff. Fifty passengers and 43 members of the crew of the Edam were landed at

Plymouth.
Captain Brunsma, commander of the wrecked vessel, says that the Edam was struck on the port side amidships. The vessel, he says, had favorable weather throughout the voyage across the Atlan tic, and no trouble of any kind was ex-perienced until the channel was reached, when a thick fog was encountered. A sharp lookout was kept on board the ship

and for a time all went well. Then one of the lookouts suddenly saw through the fog a vessel bearing down on the Edam, and gave the alarm. The signal to reverse the engines was quickly given and the order was promptly obeyed, but it was too late to avoid a disaster, and almost immediately came the crash that resulted in the foundering of the Edam. An inspection soon showed that there was no hope of saving the vessel, and the order was given for the passengers and crew to take to the boats.

Fortunately the sea was smooth, and the transfer was carried out without difficulty, and perfect order was maintained The Turkestan stood by until all were clear of the sinking steamer.

The Turkestan's stern was badly damaged.

All the passengers were picked up by

the trawler Vulture and the steamer Beresford, after several hours afloat. The Edam is only a steerage steamship She carried 39 passengers and a crew of 42 The Edam had about \$120,000 worth of freight aboard. She carried 2000 tons of corn, 800 tons of flour and 200 tons of general freight. The company valued the Edam at \$250,000.

#### LIGHTS WENT OUT.

Merchant Steamer Run Into and Sunk the Cruiser Barcastegui.

HAVANA, Sept. 20 .- The Spanish cruiser Barcastegul was wrecked at midnight Wednesday night by coming in collision with the merchant steamer Mortera in the canal at the entrance of Port Barcastegui. Admiral Delgado Parejo and three other officers and over 40 of the crew were drowned. The cruiser had been employed on government business between different parts of the island of Cuba.

Captain Vinal, of the steamer Mortera

in the course of an interview yesterday said that at 11:15 o'clock Wednesday night, when he was within two miles of the entrance of the harbor and going at a moderate rate of speed, he saw ahead on his starboard a green light, which, he presumed was that of a steamer leaving port. "I ordered the engine to slow," said Captain Vinal, "and proceeded on our course, hearing two whistles from the cruiser, to which we replied. Turning into the harbor and keeping in sight on our starboard the green light of the cruiser, we whistled twice again, thus indicating street. that we were turning into the harbor.

when suddenly all of the lights of the cruiser were put out.
"I immediately ordered the engineer to steam backwards, but it was of no avail, for the steamers collided. I ordered boats to be lowered and life-preservers to be to be lowered and life-preservers to be thrown overboard. After the collision we were entangled with the Barcastegui for a H. O. FAIRBANKS, 34 Grand View average of the collision was a constant. time, but this situation endangered the Mortera as well as the cruiser, and I ordered the engines to go ahead, my intention being to try to run the Barcastegui ashore. I soon found, however, that this

could not be done with safety to the Mor-tera. Backing off from the cruiser, the Barcastegui sank almost instantly." Admiral Parejo was the last man to leave the cruiser, being taken off in a rowboat which was about to start for shore, when the suction occasioned by the sinking of the Barcastegui carried the boat down, and all on board were drowned.

The total loss of life is set at 46.

The archbishop of Santiago de Cuba and the bishop of Havana have sent wreaths to be placed on the coffin of Admiral Parejo.

The gay streamers and flags that have decorated the city in welcome of the soldiers who have arrived from Spain have been taken down and replaced by draperies of black. The city is in mourn-draperies of black. The admiral and the ing throughout for the admiral and the officers and crew of Barcastagui.

The cause of the extinguishment of the lights on board the cruiser, which was described by Captain Vinal of the Mortera, and which undoubtedly was the cause of and which undoubtedly was the cause of the collision, was occasioned by the stopping of the engines to save the life of a street, 2 minutes' walk from Norfolk Downs sailor, whose arm had been caught in the

Wefers also won the 220-yard dash in the wonderful time of 21 3-5s., which is a new world's record. Charles J. Kilpatrick also performed a feat that will remain as a standard for half-mile runners for some time to come. With a magnificant burst of speed he covered 880 yards in 1m. 53 2-5s., which is another world's record, and exceeds the long standing figures of 1m. 54 2-bs., made

A POSTOFFICE ROBBERY May Result In the Removal of Postmaster Ring of Cambridge.

No Violence Used In Perpetrating the Theft.

Ring Reported to the Police and Subsequently

Made Good the Deficiency.

Boston, Sept. 24.-Inspector Boynton has taken steps to cause the removal of Gardner W. Ring, superintendent of the Cambridgeport station of the Boston postoffice. The inspector has forwarded papers to the chief postal inspector at Washingtaken for the best interest of the depart-

This is the result of Inspector Boynton's work, with the assistance of others in his department, who endeavored to clear up the mystery enshrouding the disappear ance of \$1200 and four registered letters from the Cambridgeport postoffice during tbe evening of Sept. 3.

It was not known until the next morn-

ing that the money was missed, and then Postmaster Ring rushed into police headquarters and announced that the money was gone. To questions asked him he re plied that the safe had not suffered any injury, and he could not say how the robbers had succeeded in gaining an entrance and then getting away with the money Without Being Seen.

It was plain that the thief was someon acquainted with the combination. As entrance to the office had not been forced, and the safe had not been opened by violence, the inspector suspected that some one employed in the postoffice had been the robber. One of the clerks went off at 10 o'clock in the evening, and another one took his place at midnight.

There was every reason to believe that the robbery had been committed within these hours. The inspector was mystified for a time, but he soon made a disclosure to his chief. The following Wednesday Postmaster Ring made good the deficiency. Mr. Ring was appointed to the postoffice service in December, 1879. He was promoted to the position of private secretary to Postmaster Corse Oct. 4, 1884. Dec. 2, 1886, he was reduced to a clerkship.

murdered Mrs. Henry L. Dudley, a goodlooking mulatto woman, and then committed suicide, at 5:30 o'clock yesterday afternoon, on Atlantic street, the main thoroughfare of the city.

Simpkins, who is a widower with three children, had been very attentive to Mrs. Joseph T. French, onliden, had been very attentive to airs. Dudley. Her husband, who is a prosperous citizen, resented Simpkins' attentions to his wife, and for a time Simpkins did not call at the house. Yesterday Simpkins got drunk, and told several of his friends that he intended to commit suicide.

About 5:50 o'clock in the afternoon he met Mrs. Dudley on Atlantic street. After speaking a few words he drew a razor from his pocket and drew it across her throat, making a gash several inches deep and extending from ear to ear. Dr. F. J. Rogers, who was on his front doorstep, saw the cutting. He says the woman staggered a few steps and fell to the side walk. He rushed out and attempted to capture the murderer, who still held the bloody razor in his hand. Simpkins ran down a side street, and before any one could eatch him out his own throat dying almost immediately. Mrs. Dudley was taken home and expired half an hour

Does Your Mother Know You're Out? This cant question was current a good many years ago-I should think about 25 or 30. Perhaps it had its popularity from some music hall song of the time. It appears in almost identical words in a comic poem published in The Mirror of April 28, 1838 (volume 31, No. 890, page 282), which is said to be an extract from Bentley's Miscellany. It is entitled "The Meeting, After the Manner of Ludwig Uhland.'

Five stanzas describe very sentimentally how the poet lay beside a fountain dreaming of Elysian plains, of old castles, gigantic forests, troops of nymphs, etc., and how a "lovely May" advances teward him from the forest shade:

Straight I rose and ran to meet her, Seized her hand; the heavenly blue Of her bright eyes smiled brighter, sweeter As she asked me, "Who are you?"

What its aim I still must doubt— And she asked me: "How's your mother? Does she know that you are out?' "No! my mother does not know it, Beauteous, heaven descended Muse!"
"Then off get you, my handsome poet,

And say I sent you with the news.'

Mr. McGee said that he beseechingly called out, "Soften the c, my boy." Mr. McGee, as we all know, was of a very dark, rich complexion. He also assured us that in an election contest between Mr. Dorion and himself they together visited a negro settle ment near Montreal, the votes of which were an important quota in the election. He (McGee) said he maneuvered and got Dorion to first address them, which he did in a long, stirring appeal, and the negro andience, shonted, "We are a downtrodden race," and then resumed

## WEATHER AND CROPS.

The Heat of the Past Few Days Has Been a Record Breaker.

Continued Dry Weather Is Causing Some Alarm.

Rivers, Wells and Pastures Seriously In Need of Heavy Rain.

BOSTON, Sept. 24.-The weekly weather crop bulletin of the New England weather service for the week ending Sept. 23 is as

Generally clear, dry, hot weather ha prevailed in New England during the week just passed, and has been favorable for ripening and harvesting crops. The first part of the week was cool, but the hottest spell of the season has prevailed during the latter part in most places. At New London, Conn., the 22d gave the highest temperature ever recorded there in the history of the bureau. Only light showers have fallen in any section during the week, and crops are suffering and water supplies are getting extremely low. One correspondent in Kennebec county, Me. states that the water supplies of the Hallowell Water company have not been so low for 17 years. The weather bureau observer at Eastport, Me., reports that the BOSTON-Old Colony News Stand after electric light works at Calais and St. Stephen on the St. Croix river have been obliged to stop, as the water is not high enough to turn the wheels. The river was never known so low before. At Eastport the deficiency in rainfall since Jan. 1 is 13.04 inches. The course of the hot wave has been the same monotonous saunter eastward that has marked its progress during four days. The very warmest part of the whole affair reached this section yesterday.

Fall Feed Suffers. prevailed in Maine, with light local showers on the 21st and 22d. The water supplies are getting extremely low and The Secretary, New York Yacht club. wells are fast failing. It is too dry to plow, and fall feed is seriously feeling the effects of the continued dry weather. The emperature the first part of the week was generally low, but for the last few days the hottest weather of the season has prevailed in many places. The heat has inensified the drought, but it has served to ripen up corn and other late crops well, until now most crops are past danger from frost. Cranberries were frost bitten on very well. Potatoes are rotting to con-

siderable extent. ## Mouth depoir 0.30, 1.00, 1.30, 8.00, 0.31, 3.00, 1.30, 1.00, 1. Potatoes Injured. potatoes yet remaining undug. Many report their crop badly rotted on some fields, while on others scarcely a rotten one is to be found. The weather has been generally clear and dry, and very favorable for ripening corn and other crops. Much ensilage corn was badly frosted last week, and will go into the silos in that condition. Pastures are very dry, and water supplies are low in many places. Corn is being put into shock very fast. There is a general complaint of damage to apples by worms, and one correspondent in Hillsboro county states that they are full of dry, withered spots. Some are sowing

T. D. Frawley, the actor manager, says winter grain, but, generally, ground is too Little Showers. Light sprinkles of rain have come in been cut and husked. also, and the crop is pondent in Chittenden county reports that "pears this year have a rust in a ring of different widths on them which causes decay very soon after being gathered.' Apples are affected also to a considerable extent. We are inclined to think that this is not due to the weather conditions, but is rather the effects of some imported fungus growth, and advise anyone finding effects of this kind on their fruit to send

> specimens to their state agricultural experiment station. Rain Badly Needed.

Great changes in temperature have occurred in Massachusetts during the past week. The first part was cold and the last part gave some of the hottest weather of the season. The heat has colored up apples, and has ripened late crops as well, When bees are to be transferred from but caused cranberries to rot to some exthe old box hives only the combs that tent and has been injurious to newly set have brood should be used. Were it not strawberry beds. One correspondent in age was done the cranberry crop by the frost than was supposed in making his recounty correspondent states that the damage to the crop was slight, and another in Barnstable county reports that it did but little damage in that county; the picking is now at its height. A rust has attacked barley in central Worcester county. Corn. on being husked, is found to be very finenearly all sound ears. Notwithstanding the frost of last spring, grapes are generally in abundance. Rain is badly needed in most sections.

Water Very Low.

The weather has been very favorable in Rhode Island for ripening crops and for harvesting, and most of the field cornjis cut and silos are being rapidly filled. Apples are falling off very badly. With the exception of a light shower on the 18th, no rain has fallen during the week, and water is getting low in wells and cisterns.

Too Dry. The dry weather continues in Connecticut, and is having a bad effect on grass in fields and pastures, and on rye and late forage crops. It has been splendid weather, however, for drying corn and beans and for digging potatoes. Several report that the potato disease has been greatly checked by the dry weather. A great part of the corn is cut. The crop was injured only slightly by frost. Newly seeded pieces are at a standstill, and are being injured by the dry, hot conditions. Celery is feeling the effects of the drought, and is rusting some in New Haven county. Apples and peaches have ripened very fast, and the former are ready for picking in many orchards; those gathered are not ripening. It is a little too dry for the best tobacco curing. One correspondent in New Haven county reports that some kind of leaf blight is killing the foliage on all kinds of trees; some kinds of apples are more susceptible than others,

and on these trees the fruit is small and

They Were Stolen Goods. On Aug. 26 the home of ex-Mayor James F. Jackson was entered, and a sealskin cape, a gold watch, a dress suit, evening dresses belonging to Mrs. Jackson, silver and other stuff were stolen. The value of the property was something over \$400. Inspectors Feeney and Perron went to work on the job. Until within a week, however, no good clue was obtained as to the thief. A small diamond ring was also found. On the walls was a handsome white cade evening dress and a white satin shoulder wrap. A pair of trousers was marked "Dr. H. C. Haven," and some shirts bore the initials "H. C. H." A lady's neck chain of coral and small rubies and pearls, with three medallions and some coral and pearl pins, were found. Twenty yards of sealskin from two to four inches wide, a boa and muff to match, three elaborate fans anlaid with pearls and a pair of trousers marked "J. Has Made but Little Headway In the Opposition to Governor Greenhalge.

Boston, Sept. 25.—The cities and towns in eastern Massachusetts which held Republican caucuses last night have elected a large majority of delegates favorable to the renomination of Governor Greenhalge. In several places unpledged delegates were elected, but most of these are expected to follow the majority.

Taunton elected a solid Greenhalge delegation, as did also Reading and Weymouth. In Chelsea the expected A. P. A. contest did not materialize, and there was but one list of delegates to the state con- served his party in various municipal posi vention. In North Attleboro candidates favorable to Greenhalge were chosen. There was only one Haile delegate. North Andover, Swampscott and Nahant all elected Greenhalge delegates with ease. The anti-Greenhalge movement did not amount to much in Worcester county. and secured 14 delegates to 50 for Green-

halge. Senator Hoar, whose name was on three tickets for delegate to the state convention, was elected. The caucuses in western Massachusetts were rather disappointing to the friends | Berlin Falls. of ex-Lieutenant Governor Haile, as the

indications are that a large majority of the delegates chosen are favorable to Governor Greenhalge. Springfield, as was expected, elected a rabid anti-Greenhalge delegation. The small towns of Hampshire and company. Berkshire seem to have elected almost solid Greenhalge delegations, and the fact

that in a great many instances the delegates are identical with those sent a year ago, seems to strengthen the theory that they will vote to renominate the governor. Franklin county 'seems to have elected an almost solid Greenhalge contingent, Greenfield leading the delegation.

### Ring Removed.

CAMBRIDGE, Mass., Sept. 25.-Gardner W. Ring, postmaster at Cambridgeport, was removed yesterday by orders sent from Washington, the removal having been recommended by the postoffice inspectors after conducting an examination in the loss of money and stamps from that office. In placing the responsibility upon him, it is said that the inspectors claim that he was negligent in some manner.

There was no evidence that he took the \$2,000,000 more bonds was authorized.

Three Men Buried Alive.

MERIDEN, Conn., Sept. 25. — Laborers were engaged in the work of extending the sewer system and had opened a trench 11 feet deep. Little precaution was taken to guard against a cave-in, as the sides were left without any support. A large water pipe sprung a leak yesterday, and washed away the earth. A large section of the side gave way almost without warning, and buried Bonanzi, Tristrupo and Govruns. The earth was removed a few minutes after, but the men were dead.

Dedicated New Engine House.

PITTSFIELD, Mass., Sept. 25.-The first lay of the annual muster of the State Firenen's association opened auspiciously, with about 250 delegates present. The forenoon was given up to the dedication of the city's new fire-engine house. Alderman Feeley presided, and an address was delivered by Mayor Crosby. At the opening of the firemen's convention Mayor Crosby gave a welcome address. President Weber of the association responded, and addresses were made by several delegates.

Twenty on the Sick List. LAWRENCE, Mass., Sept. 25 .- What appears to be a case of wholesale poisoning was discovered yesterday at the boarding house of Mrs. Sarah A. Jeffrey. Twenty of the boarders complained of severe internal pains. A number of physicians were summoned, and after two hours' hard work they were all pronounced to be out of danger. Some Fiery Speeches at Chicago by Heads of

NEW LONDON, Conn., Sept. 25. — A CHICAGO, Sept. 25.—The Irish patriotic steamer for New York had on board last convention met in Y. M. C. A. hall, night the last of the party of 400 Russian about 1000 strong. In calling the conven Immigrants, which arrived from Canada tion to order, J. J. O'Connell, chairman of resterday over the Central Vermont rail- the local committee, said that it was a Irish born race. Irish-Americans were dissatisfied with the parliamentary campaign on the other side. The parliamentary party had betrayed its support ers and proved faithless to its trust.

The convention was called to order by John J. O'Connell of Chicago, chairman of the committee of arrangements. Mr. O'Connell explained the causes leading up to the calling of the convention; that the people of this country had lost faith in the Irish parliamentary party. For three days the delegates would be called upon to devise means for the furthering of the object, for which the gathering had been called.

In the wishes of the speaker, the day would not be far distant when an Irish republic, based on the lines of the greatest republic on earth, would be established, to which end this convention would lend invaluable aid if its work were fittingly and properly done. Mr. O'Connell then introduced as temporary chairman ex-Congressman J. F. Finerty of Chicago. Mr. Finerty said the extinguishment of the nationality of Ireland by fraudulent means had placed the smaller at the mercy

of the larger. The act of union was passed by a sectarian assemblage, and had been cursed by all true, fervent Irishmen since the day of its birth. The various attempts of Irishmen to make the English government listen to reason were recapitulated by the speaker, the first and only one that accomplished the desired result being, in his opinion, the Fenian move-

The speaker continued: "There are those who fear that we may do something here against the laws of the United States. Our loyalty to the United States is shown in the Stars and Stripes on our platform; but our loyalty is a matter entirely inde-pendent of and separate from the neutrality laws. When has England paid any attention to neutrality laws? Certainly not in Ireland, where her presence is a standing memorial of her breach of neutrality laws.

Neutrality Creates Serfs. "If France had said to Washington, as is frequently said to us nowadays, 'Obthere be comparatively few Irishmen left entered a vigorous protest against the pressor, there are 20,000,000 of Irishmen in every part of the world ready and anxious to strike the blow that shall make the old country free.

"For 25 years the foreign policy of the

United States has not been what it should have been. When the English gunboats landed their men at Corinto, it should have evoked a reply from the mouths of American cannon that would make the Monroe doctrine far more effective than the negative, pusillanimous neutrality laws. When Cuba raised the flag of freedom, it should have been the duty of Americans to hasten to her deliverance, neutrality or no neutrality; and when the power of England is used against the United States, it would be our duty as citizens of this great republic, and our pleasure as childred of old Ireland, to hear the rebel yell at the gates of England—that rebel yell which, while it was confined to American soil, England did so much to encourage and foster, despite all the neutrality laws.

"Thus far all agitation has seemed to be hopeless against the treachery and deceit of England. It is time now that we try some other course. We aim to consolidate the Irish race in a sensible, aggressive movement against the British empire wherever we can strike her. In the formation of plans for this work, gentlemen of the convention, the eyes of the children

of Ireland are upon you." In conclusion, Mr. Finerty said: "We are here to proclaim to the world that the Irish race is by no means defeated or dis heartened. There are more Irishmen to day than were ever on the face of the earth before. We'll circle England with a wall of fire, which shall never be extin guished until Ireland is free."

with the sanction of the czar, a Russian bank with very large capital will be opened for business soon at Pekin, with a branch at Shanghai. Some of the most prominent financiers and merchants in Russia are interested in the scheme, which has been secretly canvassed. The charter has just been issued.

This enterprise is regarded as another indication of Russia's determination to wrest the commercial as well as the political supremacy in the far East from Eng land. Trading emissaries of Russia have freely assisted the government of China with money, and have already penetrated to the interior of China, where they are supplanting the British.

An article which appears in The Glob indicates the alarm with which the English view the situation. This article says: Russia will unquestionably extort from China the right of way through Manchuria for the trans-Siberian railway. A struggle for supremacy in Asia is upon us. If British influence does not go under altogether, we must bear our part in the old, masterful, English spirit without delay. Thanks to our good re lations with Japan, we ought to be able to work that power to our advantage politically and commercially.

The possession of the suffrage and the possession of freedom are too often confounded in popular thought. An individual is free when he is checked in his pursuit of personal happiness as little as is consistent with the existence of a like freedom for all his countrymen. Why we take this ground I shall try to show in another place. Now I may add that our general attitude with regard to the ballot being an expedient, not a "right," would be more often understood were it remembered that governments become perfect they do not live that governments may exist. Governments exist the safeguard of life. There is nothing sacred about governments except in so far that they are needful engines for the prohas a chance to improve. But the mere fact of protection does not assure improve Godey's Magazine for October is a ment. The real work of furthering it is

is shown by the fervid declaration of the woman suffragists themselves, "Whenever The funeral of the late Patrick Donley, we all ask for votes, we shall get them.' But until at least a determinant majority of us do ask for them, and until a majority of men are willing to give them to us, until public opinion favors the innovation, it is grossly illogical, misleading, disingenuous, to talk of our "right" to pediency of our getting them. Those have a right to vote whose votes public opinion thinks likely to advance the public welfare. Other people have no rights in the matter at all.

What stands behind and above public pinion except the moral law? And does the moral law prescribe direct participation in active political work for all members of both sexes, or of either sex? It prescribes no more than that the greatest good of the greatest number shall be secured, no more than that public opinion shall carefully, conscientiously concern itself with questions of political expediency. Look at the condition of most of the South American republics if you think the moral law-which must be the same for all men everywhere-prescribes universal masculine suffrage, or look even at the negro vote of our southern states, or at the voting record of New York city. do not say that universal masculine suffrage has proved itself a hopeless failure anywhere in our country, but I do say that in many places it gives a bold lie to the statement that the moral law pre-

## A LACK OF HARMONY.

Warring Factions of New York Democracy In a Turmoil.

Tammany Men Push Themselves to the Front.

Shining Lights of the State Were Conspicuous by Their Absence.

SYRACUSE, Sept. 25. - Alhambra hall,

in which the State Democratic convention met yesterday, was crowded when Chairman Hinckley of the state committee called the convention to order at 12:27. Prayer was offered by Rev. A. H. Van

Chairman Hinkley then announced as the choice of the state committee for temporary chairman Perry Belmont. Mr. Belmont was greeted with applause upon his appearance on the platform.

Mr. Belmont began a long speech by eulogizing Senator Hill for his unflinching devotion to party interests during the last campaign. In view of the reverses of that campaign, the speaker argued that the swift changes of party power in this state should encourage the Democrats not to be without hope. Much, he thought, will, however, depend on the way they appreciate the lesson of the past.

Mr. Belmont strongly advocated reform of the excise law. As it now stands, said he, the voters of the city of New York cannot control the management of the temperance question in their own city, even as much as voters in towns and villages

can control it therein.

The absurdity of such a law is manifest Leave CITY HALL (via Norfolk Downs when marked with \*)—6.00, \*6.40, 7.05, \*7.30, 8.00, 8.31, \*9.00, 9.30, 10.00, \*10.33, 11.00, 11.30 and resolutely insisted upon, it can not give a license to Governor Morton or Mayor Strong to offer in their houses in the city a glass of wine on Sunday to any the city a glass of wine on Sunday to any one who may be dining with them.

For Local Option. Just before the convention adjourned Dr. Storcke of Buffalo offered this resolu-

guarantee personal liberty and equal rights to all citizens. Sunday laws should designate the Sabbath as a day of devotion, rest and recreation. The provisions of the law should protect the people in their religious exercises and devotion on the Sabbath day; the sale of

At 1:50 p. m. the convention adjourned.

Discontent Rife. Very few of the practical politicians in having seen such a seething pot of discontent brewed within the few hours that intervened between the hour of recess of the convention and the meeting of the

various committees. From an outward calm of the early morning, born of the desire te obey the leaders, the situation has grown into a blistering ferment that make some of the greater of the leaders fear for the continuance of their control. Up to the hour of convening of the convention, it was supposed that the plan of representation

adopted by the King's county people was the plan favored by the leaders, and would be adopted in the case of the New York contest. But men with Tammany badges were about sowing discontent, and the result was that when the convention adjourned

there was no certainty that there would be any acceptance of the plan. At the head and front of the revolt against the plan favored by Senator Hill and ex-Governor Flower were Senator Murphy, ex-Police Commissioner Martin, ex-Senator Grady, ex-Mayor Gilroy and Lieutenant Governor Sheehan.

Flower and Martin at Odds. Ex-Police Commissioner Martin had a talk with ex-Governor Flower yesterday afternoon, and some very hot words passed. Flower was in favor of harmony at any cost, and Martin was just as sure that the state Democratic people should not be treated with, as they did not come regularly as contestants. The two leaders disagreed so badly that they lost their tempers and left each other without coming to a settlement. Martin went at once to the Vanderbilt and called a meeting of the Tammany committee. He appointed a committee to appear before the committee on contested seats and argue against any representation for the state Democ racy. Thomas F. Grady, a deadly enemy of the state Democracy, was made chair-

man of the delegation.

Sheehan were also absent. the cutting by Mr. Belmont of his speech, so far as it related to the "roasting" of third term presidential aspirations.

Last night the matter of the excise plank was referred to a sub-committee of the committee on resolutions. The committee on credentials recognized the Tammany organization as the regular Democratic organization, but decided to give the State Democracy organization a one-fifth repre

sentation, in the interests of harmony. The platform as adopted, after declaring in favor of excise reform and home rule ICE CREAM. for the cities, commends President Cleve-land for his efforts in behalf of sound money, tariff reform and civil service reform. The existence of the A. P. A., as a secret political order within the Repub Store. lican party, is denounced. The radical position of the extreme bimetallists is also

## A BIGAMOUS MARRIAGE

Has Its Sequel In the Suicide of Violet Haskell of Deer Isle, Me.

Left Her Husband to Wed a Negro Musician.

Returned to Husband's Sick Bed When Her Doings Were Exposed.

DRER ISLE, Me., Sept. 26.—Mrs. Violet Haskell, who became famous some weeks ago by marrying Professor J. H. Brister of Cincinnati, a negro musician, while having a living white husband sick at this race, and considerable money changed place, was found dead in the woods by the roadside yesterday afternoon, having committed suicide by shooting. Soon after the account was printed of her bigamous marriage she returned here with her child. Since then she has remained with Haskell, her legitimate husband, who continues sick. She left their home yesterday afternoon to visit the village. Within an hour after she had been seen alive her dead body was found.

The tragic death of Mrs. Haskell recalls

her marriage to Professor J. H. Brister, a colored musician and the founder of the Pickanniny band, at Cincinnati, on June 17, after leaving her husband, Everett J. Haskell, on a sick bed at his mother's home at Deer Isle.

Everett J. Haskell at one time kept a

photograph studio on Washington street, Boston, but became sick and was obliged to enter a Boston hospital. His wife visited him regularly, and, being convinced that he would die, is alleged to have Put on Widow's Weeds.

Finally she decided that he ought to die in his Deer Isle home, and had him taken there. She remained with him for three days and manifested excessive devotion On the third evening she engaged a gentleman to drive her to the village, where it is said, she passed the night, leaving the island in the morning.

She arrived in Boston on May 20 and

went to a hotel, the register of which, it is stated, showed the name of "Mrs. Pro-fessor Brister and maid." The following morning she went to a Somerville boarding place where her child, Ethel, was took her away and started for Cincinnati. Her Marriage to Brister. Professor Brister, whom she afterward

### GREENHALGE A WINNER. Sure of Nomination For Governor by Republic cans of the Bay State.

Boston, Sept. 26.—Caucuses of Tuesday and Wednesday nights show that a large majority of the delegates are favorable to the renomination of Governor Greenhalge. The Republican state convention wil be made up of 2013 delegates. Of these, 774 were chosen Tuesday night, leaving 1239 to be chosen last night. So far as the returns have been reported the caucuses of both nights chose 817 Greenhalge delegates, 252 counted as anti-Greenhalge delegates, including about 50 pledged to Haile and 68 doubtful.

These reports show pretty clearly that the fight of the A. P. A. has failed, for many of the cities that were regarded as A. P. A. strongholds completely slumped, of Governor Greenhalge.

So far as the caucuses are concerne there can be no doubt of the result. Whether the A. P. A. will now continue their fight in the convention remains to be seen. The opinion prevails that they will not, but will submit as last year. District Attorney Moody has carried every city and town in the Sixth congressional district, except Gloucester and Groveland, and will, therefore, received the Republican nomination for congress

The Republican Caucuses Last Evening Elect Delegates Favorable to the Governor.

WARD ONE FOR SEARS.

His Majority Surprisingly Large-A. P. A

Vote Small. The Australian system worked very satisfactorily in Ward One, and it is not likely that this ward will ever go back to the marking list of ye olden times. It was the largest caucus ever held, 215 votes being cast, only 50 less than Candidate Moxon received last year, and therefore a representative expression of choice. Although there were three or more tickets in the field the delegates chosen to each convention generally received a majority.

The State delegation is solid for the renomination of Frederic T. Greenhalge for Governor, and Mr. Henry H. Faxon was not elected a delegate. Three of the four councillor delegates

are for Benjamin S. Lovell, the fourth man being Mr. Faxon who defeated John H. Bent. Again in the Senatorial list the first four on the list were successful, and Mr. Faxon

was elected. There was but little contest for the county, and the district attorney nominees had a walkover, and Mr. Faxon was elected

The greatest contest was over the choice of Representative delegates, and the LEDGER'S prediction was more than verified, Russell A. Sears, Esq., receiving a handsome majority of all the votes cast. and over twice as many as were cast for Mr. Sheppard. The third delegation on the ticket was said to be an A. P. A. list but it did not cut much ice.

## PROPOSAL CAST ASIDE.

One-Fifth Vote Would Not Satisfy the Empire State Democracy.

Tammany Causes Bother of No Small Degree.

Platform Endorses Cleveland and Calls For Sound Money and Home Rule.

SYRACUSE, Sept. 26. - The Democratic convention has done its work and adjourned. The State Democrats, angry at being given only one-fifth representation from New York city, marched out of the at the decision and cries of derision from the spectators' benches.

The ticket nominated was as follows For secretary of state, Horatio C. King of Kings; for attorney general, Nelson B. Chase of Albany; for state treasurer, De-Witt Clinton Dow of Schoharie; for comptroller, John B. [Judson of Montgomery; Onondaga.

The Tammany men and the Grace-Faira had night of it. They fought their fight before the committee on contested seats until after midnight, and then, when the committee's verdict was learned, both were dissatisfied. The resolution adopted by the committee on credentials was as follows:

Tammany Hall is entitled to recognition in all future conventions as regular, and its delegates are to be placed upon the preliminary and other rolls thereof, and in the appointment of inspectors of elections, the use of the party emblem and in every other way in which the question of party organization may arise, said Tammany Hall organization shall be recog-nized and seated as the regular organization of the party in New York county, but in the interest of harmony at this time the commit-tee recommends, subject to the aforesaid con-ditions, that the sitting delegates. as well as the delegates known as the State Democracy.

The first ballot was to allow the conlow one-fifth. It was carried by a vote of | Charles D. Rose's mother was Miss Em- | or two after she is supposed to have been 82 to 17. Senator Hill voted in the affirm-

ative.

Convention Proceedings. The state convention was called to order at 11:26. and Permanent Chaiman Flower addressed the delegates. The ex-governor said he counted himself out of politics, but he was too earnest a Democrat to refuse the call of his party if it needed his services on such an occasion as this. His

address was very lengthy. When the New Yerk contest was reached the resolution as adopted in committee was read during intense quiet. Then during the roar of applause Delegate Patterson offered a resolution giving the County Democracy one-third representa-

tion and Tammany two-thirds. Mr. Patterson appealed to the convention to do justice to the New York contestants.

Mr. Bell urged the adoption of the report of the committee on credentials. Senator Guy and ex-Senator Grady of the New York Tammany delegates, spoke in Juniata were married yesterday afterfavor of the Tammany side of the dispute. favor of the Tammany side of the dispute.

An hour afterward, while the bride was on her husband's lap reading erson amendment placing the names of the marriage certificate, one of the guests 8.00, 8.31, 9.00, 9.30, 10.00, 10.33, 11.00, 11.30 your footwear at 1372 Water St.

Then the question of adopting the report of the committee on credentials giving and the shire load entered Morningstar's local contents. the contestants one-fifth representation was put and carried by a large affirmative

Confusion followed. Tammany men cheered, and cries of derision were heard from the spectators' benches. In the midst of it all the Grace-Fairchild Dem-

ocrats marched out of the hall. Democracy's Demands. The platform, which was adopted without debate, makes the following declarations of principles and policy:

 Home rule, the first essential condition of good municipal government; local jurisdiction and control over purely local affairs; no legislative meddling.

2. Economy in public expenses; no public money for private purposes or political jobs: strict audit of official expenditures; a low tax

8. Honesty in public office-no tainted legislators; no corrupt traffic in legislation; clean men and free agents; no hypocrites. 4. Equal and honest enforcement of all the laws; a proper observance of a day of rest and an orderly Sunday; modification or repeal of laws unsupported by public opinion; no un-

just sumptuary laws; no blue laws; recognition of the fundamental American principle of freedom of conscience; home rule in excise as in other matters within reasonable limitations established to protect the interests of temper-ance and morality—and an amendment of the excise and other laws by the legislature of the state which shall permit each municipality ex-pressing its sentiments by a popular vote of a majority of its citizens to determine within such proper legislative restrictions as will be in the interests of the entire state, what may be required by its necessities and conditions. 6. The attempts of prominent Republican politicians in the large cities of the state in repudiating their own platform are renewed evidence of their hypocrisy and dishonesty on

the excise question.

6. Equal taxation; no unjust discrimination; no favored interests; no party legislation.
7. Individual liberty; the right of all citizens to equal opportunities before the law; equal and exact justice to all men.

"The art elections: compulsory official ac-

counting of expenditures by political commit-tees, as well as candidates; personal registr-tion of voters as a safeguard against fraud.

9. Practical and honest reform in the civil service.

10. Intelligent and liberal promotion of agri-11. Improved highways of travel throughout

the state.

12. Beneficial and needed legislation in the 13. Federal taxation for revenue only; no government partnership with protected mo-nopolies; no meddling with the present re-formed tariff to the injury and unsettling of ousiness and industries.

14. Sound money; gold and silver the only legal tender; no currency inconvertible with coin; gradual retirement and extinction of the greenback currency; no free and unlimited coinage of silver.

15. Strict construction of the federal constitution: rigid maintenance of the reserved rights of the states; no force bills. 16. No entangling alliance with foreign na-

tions; the vigorous enforcement of the Monroe doctrine; no jingoism. The planks of the platform on national affairs declared for sound money, taxation for revenue only, no entangling alliance and endorsed the administration of Presi-

dent Cleveland.

At the request of William Sulzer of New York the following resolution was adopted without objection: Resolved, that we extend our sympathy to the Cuban patriots and to all people strug-gling against oppression, and endeavoring to achieve their freedom and independence.

PRAISE FOR PEARY. His Discoveries Surpassed These of Mansen

and Nordenskjold. WASHINGTON, Sept. 26.-General A. W. Greeley, the Arctic explorer, when asked how he regarded the various expeditions

of Lieutenant Peary, replied: "That is somewhat of a difficult question to answer. It may not be satisfactory to some, that the courage and perseverance of Lieutenant Peary have resulted in some of the most brilliant geographical

feats of late years. "Hls journey over the Greenfield ice-cap far surpassed in extent and discoveries the journeys of Nordenskjold and Nansen upon the inland ice from 600 to 1000 miles to the south. From a geographical standpoint, the most important result has been the location of the extreme coastline of

northeast Greenland. "Peary's efforts, single-handed, have hall amid cheers from the Tammany men done more to outline the coast than the entire efforts of European travelers for a century past. He has reached a point more than 200 miles above the extreme north reached by the German explorers in

"The most important scientific benefit derived from the expedition is the enabling of experienced American geologists for state engineer, Russell R. Stuart of to study on the spot the glacial conditions of Cape York region. The application of photography to this work has enabled child Democrats from New York city had Chamberlain and others to do more extensive and important work in a few weeks than their European predecessors could in as many months. The outcome of Chamberlain's studies must be of considerable importance from a geological standpoint.

"From a standpoint of physical geography it is of very great interest to know that for the greater part of north Greenland is covered with an ice-cap thousands of feet in thickness."

When asked if Peary's methods showed that the future of Arctic success depended on the use of very small parties, General Greeley replied: "On the contrary, they emphasize the extreme danger of such operations with a very few men. A small party must always do the brilliant work, but it must be supported by a more extensive party under a competent leader.'

CALLED IN THE SIXTH. Umpire Murray Was In a Hurry to Leave the

Brooklyn Ball Grounds. NEW YORK, Sept. 25.—The Bostons were virtually robbed of all chance of winning the game, which will be protested by Captain Nash. Umpire Murray must have had an important and early engagement, for he called the game at the end of the sixth inning, and, without listening to Nash's protests, walked off the field hurriedly, donned his street clothes and left the grounds. Nash had the sympathy of the crowd when the empire announced his de-cision of calling the game. The teams could have played one hour longer without it being dark.

Christian Endeavor Officers Regin Journeys to Conventions.

Good Citizenship and Evangelistic Work

Being Carried Out on the Plans Inaugura'ed at the Boston Convention.

Boston, Sept. 27 .- President Clark of today begun his fall and winter's work of traveling over the country, addressing Fuller alleges that the respondent, withcial or state meetings, that of the Ontario convention at Bradford. Dr. Clark's next large convention will be at Huntingdon,

Moderator Reynolds.

From there he will go to Illinois, one of the greatest of all Christian Endeavor unions, where he addresses the state convention at Bloomington Oct. 3-5. The southside branch of the Chicago union has arranged for a big mass meeting on Oct. 7, to be addressed by the founder of day laws. the society.

From that place Dr. Clark will hurry astward in order to reacn the Massachusetts state convention at Pittsfield, Oct. 8-9, where he is to deliver an address and conduct the consecration service. On Oct. 18 he will go down to Syracuse to-speak on Christian Endeavor before the

Congregational council. Three days later he will address the meeting of the American Board of Foreign Missions at Brooklyn on the same subject His later itinerary is not yet fully mapped

Good Results Accomplished. Speaking of his work just prior to his departure from this city, Dr. Clark stated that the two interests for which Boston stands pre-eminent, good citizenship and evangelistic work, are affecting almost every large gathering of Christian Endeavorers. Several of the state conven tions have conducted noonday meetings in shops and factories, similar to those held in Boston, and in every case the greatest nccess has attended them.

The good citizenship meeting that was urday of the convention, but that had to be held in the tents on account of rain, is We have a large Stock for Boys and Cirls' wear being duplicated in smaller degree in many of the Christian Endeavor conven tions, state and county. ## A BUSINESS GOVERNOR.

Culberson Says Prize Fight Cannot Come Off In Texas.

Issues a Call For Special Session of Legislature

To Enact a Law Which Courts Will Be Unable to Wrangle Over.

AUSTIN, Sept. 27. - Governor Culberson last night issued a call for a special extra session of the legislature for Oct. 1, to pass a law prohibiting prize-fights.

The governor issued the proclamation at midnight, after a lengthy consultation with his cabinet, and gives as the reason for his action that under the present condition of the law the fight managers are liable to pull off the fight while the courts are wrangling over it, that the chief fustice of the court of criminal appeals has ruled against the state, and now there preme court, that may go in an entirely different line, thus causing a conflict between the two highest courts in the state. In order to avoid all possible contention, he issued the call convening the legislature next Tuesday in this city, and sets forth the purport of the call as follows.

Right to the Point. Whereas, a decision of the presiding judge of the court of criminal appeals lately ren-dered will embarrass the execution of the laws of this state against prize fighting and other associated infractions of good order and the public peace, now imminent and threatened, and,

Whereas, there is no certainty of a determination of the soundness of said decision by a court of final resort in time for existing emer-

gencies, and Whereas, It is proper, in avoidance of every pretext for disregarding the laws, that all con-troversy respecting them should be removed by legislation and all reasonable pacific means resorted to in the first instance to force then inasmuch as the present legislature unani-mously passed such a prohibitory law on the 16th and 24th days of April, to become effective Aug. 1, 1894, as part of the penal code, it should require a session of a very few days at a small cost, to remove any possible defect, and put the law into immediate operation, an extraor-dinary occasion has arisen requiring the legislature to be convened in special sessions.

Now, therefore, I, Charles A. Culberson, governor of the state of Texas, by virtue of the authority vested in me by the constitution thereof, hereby call a special session of the 24th legislature, to be convened in the city of

Austin, beginning at noon, Tuesday, Oct. 1, 1895, for the following purposes.

1. To denounce prize fighting and kindred practices in clear and unambiguous terms and prohibit the same by appropriate pains and penalties, putting the law into immediate operation and making necessary provision for its enforcement, so that the proposed exhibi-tion of this character within this state may be prevented, the undoubted will of the people upon the subject respected, and this affront to moral sense and enlightened progress o Texas averted.

2. To consider and act upon such other mat ters as may be present, pursuant to section 40 article 8, of the constitution

## Political Notes.

The Democratic caucuses for the election of representative delegates will be held Oct. 10. Only one name as Quincy's representative has been mentioned, Charles F. Adams, 2d. It is said that the Repub-Councillor, - Edward J. Cummings, licans would rather see any other man nominated and undoubtedly Mr. Adams would poll a large vote, but many Democrats are not willing that Mr. Adams should be their candidate as they would Francis Clinton, Alice Crane, Michael rather sacrifice a representative than be without a candidate for the mayoralty. It is understood that the majority are favorable to his nomination for mayor. It is more than likely that a Representative Marion Hallet Nickerson, Paul Nixon, candidate will be nominated outside of Franklin Sanborn Perry, Lee Phillips, Ward One.

It is conceded among Republicans that Ex-Councilman Thaddeus H. Newcomb will be one of the nominees for Representative. The Quincy Point and Atlantic delegates are for him, and possibly the Wollaston, while his friends count on several in the other wards. Turn from the battling nations, Turn from the war for place, Step out of the ceaseless struggle, And look life in the face.

No more of warring armies. No more of blood-stained flights. For a simple act of kindness

Is more than a hundred fights. Too long has the blare of trumpets Deafened the finer ear; The pomp of armies with banners

Has made the sight less clear.

From the burning thirst of fever From the tossing to and fro. From the agony and terror Of a hundred forms of woe.

Here is refuge, here is comfort,

Wisest skill and loving care, And, if through the sunlit heavens " Angels ever bright and fair," Come to earth, their mission surely, Would accord with theirs who live

With no thought of self or profit, Health and strength and life to give. Kings may shower their empty favors, Schools may squander their degrees There's a nobler, knightlier honor

Than such parchment toys as these. Tis the consciousness of doing Without hope of pelf or place, Freely, kindly, wisely, daily Something for the human race. -Frederic Allison Tupper.

## "A SOVEREIGN PEOPLE"

Crushed to the Ground by Means of Corruption and Coercion.

Ireland Robbed of Her Prestige by Great Britain.

Conclusions Reached by the Newly-Formed

CHICAGO, Sept. 27.—Birth was given by afternoon to an organization which had vanta, and James Lawler, Texas. that of the old Fenian brotherhood. The introductory to the report of the committee on ways and means and plan of organization is here given:

"The new movement" organization shall be known by the style and title of the Irish Na-tional Alliance. It shall have for its object the securing of the independence of Ireland by any means within its power, consistent with the laws and usages of civilized nations. The qualipledge of honor:

"I hereby pledge my word and honor to aid by every means within my power, in comformity with the constitution and bylaws of the Irish National Alliance, in securing the independence of Ireland." This organization shall be governed by a

president, vice president, treasurer and an ex-cutive council of nine members, who shall hold office for two years, or until their successors are elected and duly qualified.

A two-thirds vote of the executive council shall be necessary to overrule any motion or act of the present Irish National Alliance. The president, vice president and one member of the executive council, such member to be selected by the executive council, shall be n charge of the funds of the organization. The state organizations shall be modeled on the national plan, and all authority to organ-ize must come from the national executive,

and no other authority to organize shall be quarter, payable in advance. Each local sub-division of the Irish National Alliance shall be known as a council. Each council shall transmit quarterly to the national treasurer 75 per cent of all moneys received, after legitimate expenses are paid.

Legitimate expenses of a council shall consist of hall rent and stationery. Delegate Fitzmaurice wanted the con of the Irish republic by electing a president, vice president and parliament. Chairman Finerty disposed of his suggestion with the remark that the only place for the establishment of a government for Ireland was on Irish soil.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning Sept. 29. Comment by Rev. S. H. Doyle. Topic.-Progress in the Christian life.-II

Christianity is a life, and the law of life is advancement, progress. Not to advance, not to progress, is to die, to cease to live. Peter aptly lays down the law of progress in the topical reference. President, William Lyman, New York; Taking for granted that we have faith, he urges us to add to our faith or to supplement our faith with such Christian virtues as will make us neither barren nor unfruitful and will msure us an entrance into heaven.

1. Progress means no standing still. We cannot advance in the Christian life and occupy the same place. Standing we would like to dwell as Peter desired to do on the Mount of Transfiguration, but we cannot do it. There are no abiding places for Christians in this world. We could never reach heaven by standwhich they had formerly used in address- ing still amid the most rapturous exing each other, and adopt the words, periences of this life. We cannot stand "Comrades of the Irish Republican still. We will go forward or backward. 2. Progress means no turning aside. We are enjoined in God's word to let

our eyes look right out-to turn neither character, birth on Irish soil, or descendant from Irish parentage on paternal or maternal what hotly: "For the first time, the cloth of God's minister has interfered with the progress demands that we heed this input of God's minister has interfered with the progress demands that we heed this input of God's minister has interfered with the progress demands that we heed this input of God's minister has interfered with the progress demands that we heed this input of God's minister has interfered with the progress demands that we heed this input of God's minister has interfered with the progress demands that we heed this input of God's minister has interfered with the progress demands that we heed this input of God's minister has interfered with the progress demands that we heed this input of God's minister has interfered with the progress demands that we heed this input of God's minister has interfered with the progress demands the control of God's minister has interfered with the progress demands the control of God's minister has interfered with the progress demands the control of God's minister has interfered with the progress demands the control of God's minister has interfered with the progress demands the control of God's minister has interfered with the progress demands the control of God's minister has interfered with the progress demands the control of God's minister has interfered with the control of God's minister has interfered with the progress demands the control of God's minister has interfered with the control of God's minister has a control of God's minister h junction. Satan is shrewd in tempting us. He never tempts a man to turn his of a new Irish song, called "God bless Ire- back in one movement upon his religious beliefs, professions and duties. > The speculation in cotton has lifted the price % during the past week, and quota-tions here are so much higher than at Livpected.

> But for the extraordinary supplies car ried over from last year, the manufacturer here and abroad would be in trouble. The wheat market has been excited with out much discoverable reason, and the

price has advanced over 5 cents for spot and 21/2 cents for December deliveries. Nothing is clear about the iron and steel manufacture, but some of the largest Pittsburg concerns, professing to have orders for many months ahead, are bidding for small contracts in eastern markets at There is also a halt in the advance of leather, no higher prices having been re-corded this week, though hides are, on the whole, a shade stronger. The demand for boots and shoes is narrow, and many factories have stopped, while others are

running part time.

The advance in wool at London sales stimulated the speculation here, but prices are, on the whole, unchanged, and sales have been for the month 84,675,970 pounds Failures for the week have been 216 in the United States, against 235 last year, and 50 in Canada, against 55 last year.

### Rogers Defends His Club.

PHILADELPHIA, Sept. 28. — Since the termination of the recent series of ball games between the Philadelphia and Baltimore clubs several local newspapers have criticised the home club in terms which implied that the results of the series had not been altogether unforeseen by the Philadelphians. In consequence of these publications John I. Rogers, one of the owners of the Philadelphia club, made a SALESMAN-SALARY OR COMMISstatement, in which he says: "The Philadelphia club will pay \$1000 for the proof fore the national board of any intentional misplay tending to the loss of a single game to Baltimore or elsewhere during the season of 1895."

## Sleeping / Car Aches

This is a hurry-up world, and health often suffers to aid business. The only sleep the majority of traveling men get is in a "sleeper." Closed eyes and unconsciousness with the body moving at every curve in the road, at every jolt of the car, isn't restful sleep. The morning Backache means tired Kidneys.

Buker's Kidney Pills will clear a pair of clogged, tired-out kidneys-they are simply tired kidneys-tired from working both day and night. These pills prevent disease and act as tonic on the vital organs. A box will fit your vest pocket. They cost 50 cents at the druggists. Book about Kidney ache, free.

## The Daily Tedger. EXTRAVAGANT CLAIMS

Have Thus Far Failed of Verification by Counsel For Durrant.

Prosecution Is Reasonably Sure of Conviction.

A Brief Review of Main Points In the Trial to Date.

SAN FRANCISCO, Sept. 28.-After two days devoted to the testimony of the defense, the Durrant trial was adjourned a noon yesterday until next Tuesday. In the meantime, however, the defense has disclosed enough to satisfy the prosecution that Durrant's attorneys are groping in the dark in the hope that something may develop within the next few days. After two days devoted to the testi mony of the defense, the trial was adjourned at noon yesterday until next Tuesday. In the meantime, however, the defense has disclosed enough to satisfy the prosecution that Durrant's attorneys are groping in the dark in the hope that some

thing may develop within the next few The weakness of the defense is made ap parent at this time on account of ex travagant assertions that Durrant's at torneys have uniformally made since the trial began. When the prosecution was engaged in putting in its case, and the situation looked darkest for Durrant, Attorney Duprey was accustomed to snap his fingers, and remark that he had no fears for the future of his client.

"We will clear him in three minutes," said Duprey, "and the public will be at a loss to understand how Durrant's name was ever connected with the case." The same line of extravagant claims was continued when Attorney Duprey made his

Opening Speech For the Defense. "Not only will the prisoner tell with his own lips the simple story of his life on the day that Blanche Lamont was murdered,' said Duprey, "but Dr. Cheney will tell you that Durrant was at Cooper Medical col lege at the very hour when the murder o Blanche Lamont is said to have taken place. Besides that, we will prove to you that Durrant never tried to pawn Mis Lamont's ring at Oppenheim's store. On the contrary we will bring forward the young man who did try to pawn a ring at Oppenheim's similar to the one work

by Miss Lamont." In view of these startling statements, i was first believed that the defense might have a strong case held in reserve which would put to a severe test the case of the prosecution. Mr. Cheney, who was expected to tell so much for the defense, was as strong a witness for the prosecution as has taken the stand during the trial. In stead of fulfilling Duprey's statement and swearing that Durrant attended a lecture at Cooper Medical college, he said he had no recollection of seeing the young medical

If further proof were needed, on the be lief that the defense has little to offer in refutation of the case put forward by the prosecution, it was furnished yesterday. Instead of placing witnesses on the stand to testify in connection with Durrant's alibi, two gasfitters were called to testify with regard to the sunburners in the gal-lery of Emanuel church. For two hours the crowd was bored and the jury made tired by a long series of questions and an-

Drawing on Imagination The evident purpose of the examination was to show that the repairing of sunburners would necessarily result in the escape of a great deal of gas. This testimony will be used to substantiate Durrant's statement that he was suffering from partial asphyxiation when he came down from the church belfry, trembling and flushed, and met Organist King in the auditorium. A significant feature of the testimony

of the two gasfitters was the fact that each testified that he made an examination of the sunburners in Emanuel church on Sept. 21. The prosecution interprets this to mean that the defense had nothing upon which to base a case until the case of the people was nearly completed. The present character of his case, how ever, has produced no change in the demeanor of Durrant. Day after day he sits in the courtroom beside his father and

him without a sign of emotion. This stoicism on the part of the prisoner is only surpassed by that of his mother. Mrs. Durrant seems to have no conception of the gravity of her son's situation. Attired in waving plumes and a tailor-made gown such as a lady might wear at a matinee, she laughs and chats with her friends while the evidence that the prosecution believes will hang her son is being put in against him. To frequenters of the courtom, Mrs. Durrant's conduct is almost as unfathomable as that of her son. Durrant's father, however, looks care

worn, and gives evidence of the intense mental strain through which he must be passing.

and Indian Wars.

General Schofield retired from active service at noon yesterday, and it is probable that the appointment of General Miles will be announced by tomorrow. This announcement will set at rest the rumors which have agitated army circles service. He is over six feet tall, and does turing the past year concerning General Schofield's probable successor. While General Miles was the senior major general of the army, and one of the most popular, personally, with his subordinates, it was reported that he was for some reason ersona non grata to the president, and that the fact that he had no diploma from West Point might weigh against his hances. General Ruger was the principal rival for the appointment mentioned. There was also an impression in some quarters that the office of general of the Fine line of Art Work constantly on hand. The rank of lieutenant general expires with General Schofield's retirement, as it is a grade only created by special acts of congress in recognition of distinguished services. It has been bestowed upon six generals, Washington, Scott, Grant, Sherman, Sheridan and Schofield.

Experience That Counts. General Miles has received all his military training on the field of experience, instead of in the schools. He will be the first general for many years who was not a West Point graduate, and, as the West Pointers are reputed to esteem themselves the aristocracy of the army, it has been ported that his volunteer antecedents ould militate against his appointment so far as the influence of the army circle had to do with it. General Winfield Scott was the last commanding general, who was

General Miles' promotion was marked by somewhat exceptional rapidity, only about a year elapsing before he was made lieutenant colonel of the Sixty-first New York infantry, and a month later, Sept. 30, 1962, be was made a colonel of the same

regiment. In 1864 he attained the rank of brigadier general of volunteers, and early in the following year obtained his comssion as major general of volunteers. In 1866 he was mustered out of the volun-teer service and placed in command of the Fourth United States infantry, in which

he remained till 1869, when he was trans-

Altogether the new commander has had a varied military career, since the war he has been best known as an Indian fighter. He did fine work at the head of the Indian Territory expedition in 1873.

WE NOTICED one day recently that considerable work had been done towards building a new road from Granite street to Whitwell, at the City Hospital. The street is being built through the field back of President's hill, and in what was known in ancient times as the Cranch pasture. The land association has given the contract to Charles L. Prescott, who has several teams and men at work removing the loam and grading the road.

The new street will enter Granite street at Cranch place, near the residence of Mr. Simon G. Elliott, and will make it much more convenient for many who wish to go to the City Hospital from the south part of the town.

The Company are opening some very fine houselots, which must soon be covered with nice buildings. Some of the lots at the westerly end are very high and command a fine view of Boston, and the numerous islands in the harbor; in fact in clear weather, many of the towns on the north shore can be distinctly seen.

### Among the Churches.

The Junior Endeavor society of the Centre Congregational resumed its meetings on Sunday afternoon.

At the business meeting of the Y. P. S. C. F. of the Washington street church Sunday evening, steps were taken to arrange a lecture course for fall and winter.

Beginning next Sunday a series of special evangelistic meetings will be held for men for one week in the Y. M. C. A. rooms. These meetings will be addressed you the shores a crowding, For you they call, the swaying mass, the eager by some of the pastors of the city.

The next meeting of the Quincy Y. P. S. C. E. Union will be at the Point Congregational church, on the first Monday evening in November. The programme will be My father does not feel my arm. He has no announced later.

Holy communion was observed at Christ's church at 9.30, and at 10.30 the rector preached on "The Mission of the Angels." The second of the series on the Ten Commandments was given in the evening.

Sunday morning at the Quincy Point church was observed as children's morning. The sermon was on John 6:9, and directed es: ec ally to the children, who due to an unusually efficient flower committee, aided by the children.

A large crowd gathered in the Square Sunday afternoon to hear Rev. W. G. Davis of Coleraine, Ireland, who was ad vertised to speak. They were disappointed. however, as Mr. Davis was unable to be present. o the Editors of the Daily Ledger .

I notice in your issue of Friday last that you state: "Without notifying the Chief Engineer the Water Department took up the hydrant opposite the residence of Mrs. Lane, Goffe street, and carried it off and filled up the hole." The fact is, that after obtaining consent of the Water Board to remove this hydrant I visited the place with the Chief Engineer of the Fire Department and agreed upon a new location, although it did not agree exactly with that wanted by a very near neighbor. I imnediately set to work removing this hydrant and at 1 o'clock of the same day had it relocated about twenty-five feet from its former position and the work completed. to be his wife, and I took this walk with and in no time was the Fire Department you to tell you so and did not do so be- handicapped by the removal of this cause, as you are well aware, you took hydrant. Maine to California, from the Gulf to the St. Lawrence, come the glad tidings of woman's suffering relieved by it; and thousands upon thousands of letters are pouring in from grateful women, saying that it WILL and does positively cure those painful

Ailments of Women. It will cure the worst forms of female complaints, all ovarian troubles, inflammation and ulceration, falling and dis placements of the womb, and consequent spinal weakness, and is peculiarly adapted to the change of life.

Every time it will cure Backache. It has cured more cases of leucorrhœa by removing the cause, than any remedy the world has ever known; it is almost infallible in such cases. It dissolves and expels tumors from the uterus in an early stage of development, and checks any tendency to cancerous humors. Lydia E. Pinkham's Liver Pills work in unison with the Compound, and are a sure cure for constipation and sickheadache. Mrs. Pinkham's Sanative Wash is frequently found of great value for local application.
